

Image Editing

Image Editing

- Visit www.photoshop.com to access an online image editor program
- First select **Create an Account**
- Enter your email address, create a password and a username.
- You will get a confirmation email, check your email account and click the verify email link to verify your account.
- Select **Sign in** to login to Photoshop.com

Sign in to Photoshop.com

- Sign in to Photoshop.com with your Email address and Password you used when creating your Photoshop.com account

Select Photoshop Express Editor

The screenshot shows the Photoshop.com website interface. At the top, the navigation bar includes the Photoshop logo, 'PHOTOSHOP.COM', and several menu items: 'Me', 'Products', 'Learning', 'Online Tools', and 'Blog'. The 'Online Tools' menu is highlighted with a red circle, and a red arrow points to the 'Photoshop Express Editor' option, which is also circled in red. Below the navigation bar, the main content area features the text 'Express yourself wherever you are' in large white font. In the foreground, there are two overlapping windows: the 'ADOBE PHOTOSHOP EXPRESS EDITOR' on the left, showing a photo of tulips and editing tools, and the 'ADOBE PHOTOSHOP EXPRESS ORGANIZER' in the center, displaying a grid of photos in a library view.

- Once you have logged in to Photoshop.com, select **Online Tools - Photoshop Express Editor**

Welcome Simon Doherty

Welcome to your personalized homepage. To make getting around Photoshop.com easier, we've put all your stuff and the tools you use at your fingertips. This page is made just for you—the more you use Photoshop.com, the better this page will get.

[LEARN MORE →](#)

Start by personalizing your home page with the following:

Upload and share

Upload some photos and video to your online library and start sharing to your gallery.

Find friends and stay connected

Find and invite your friends to keep up with their

[Upload photos and video](#)

[Organize my library](#)

[Edit an image](#)

[Customize my gallery](#)

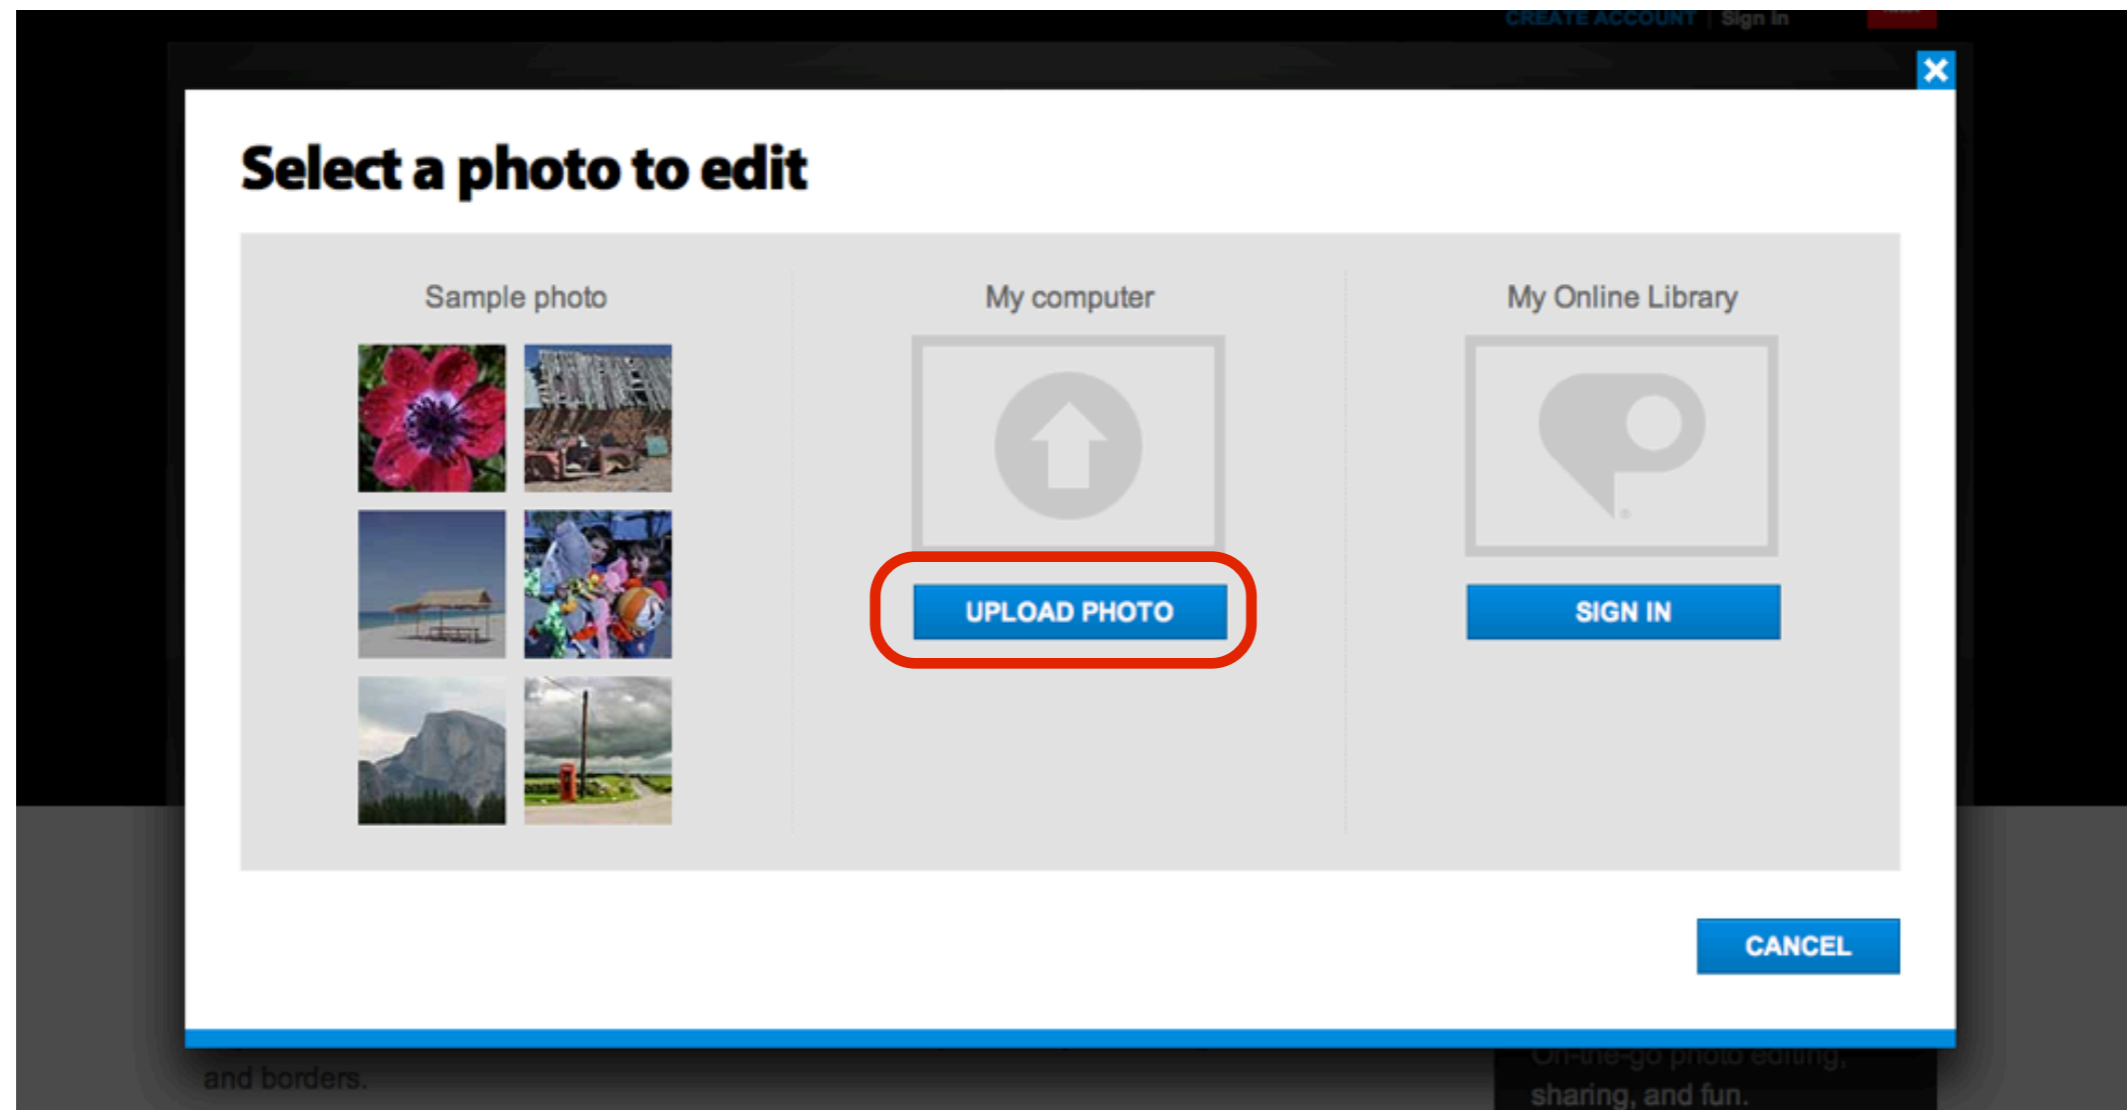

[Edit my profile](#)

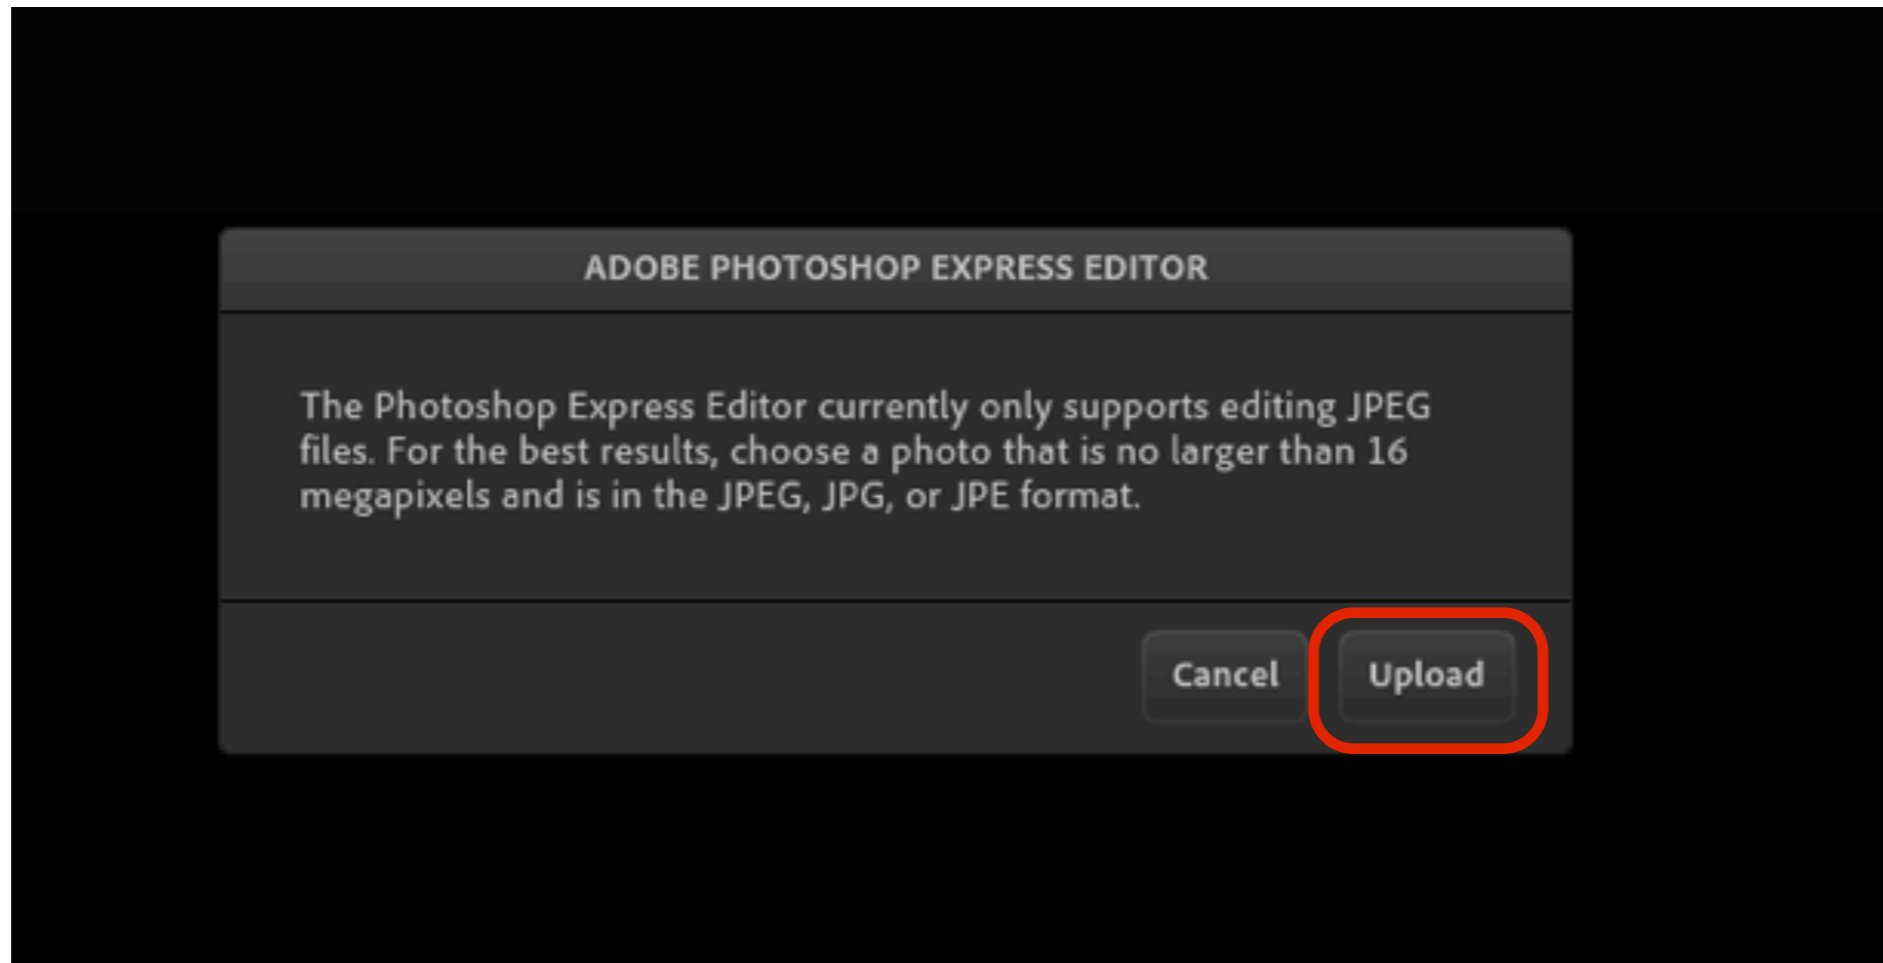

- Select **Edit an image**

Select a photo to edit

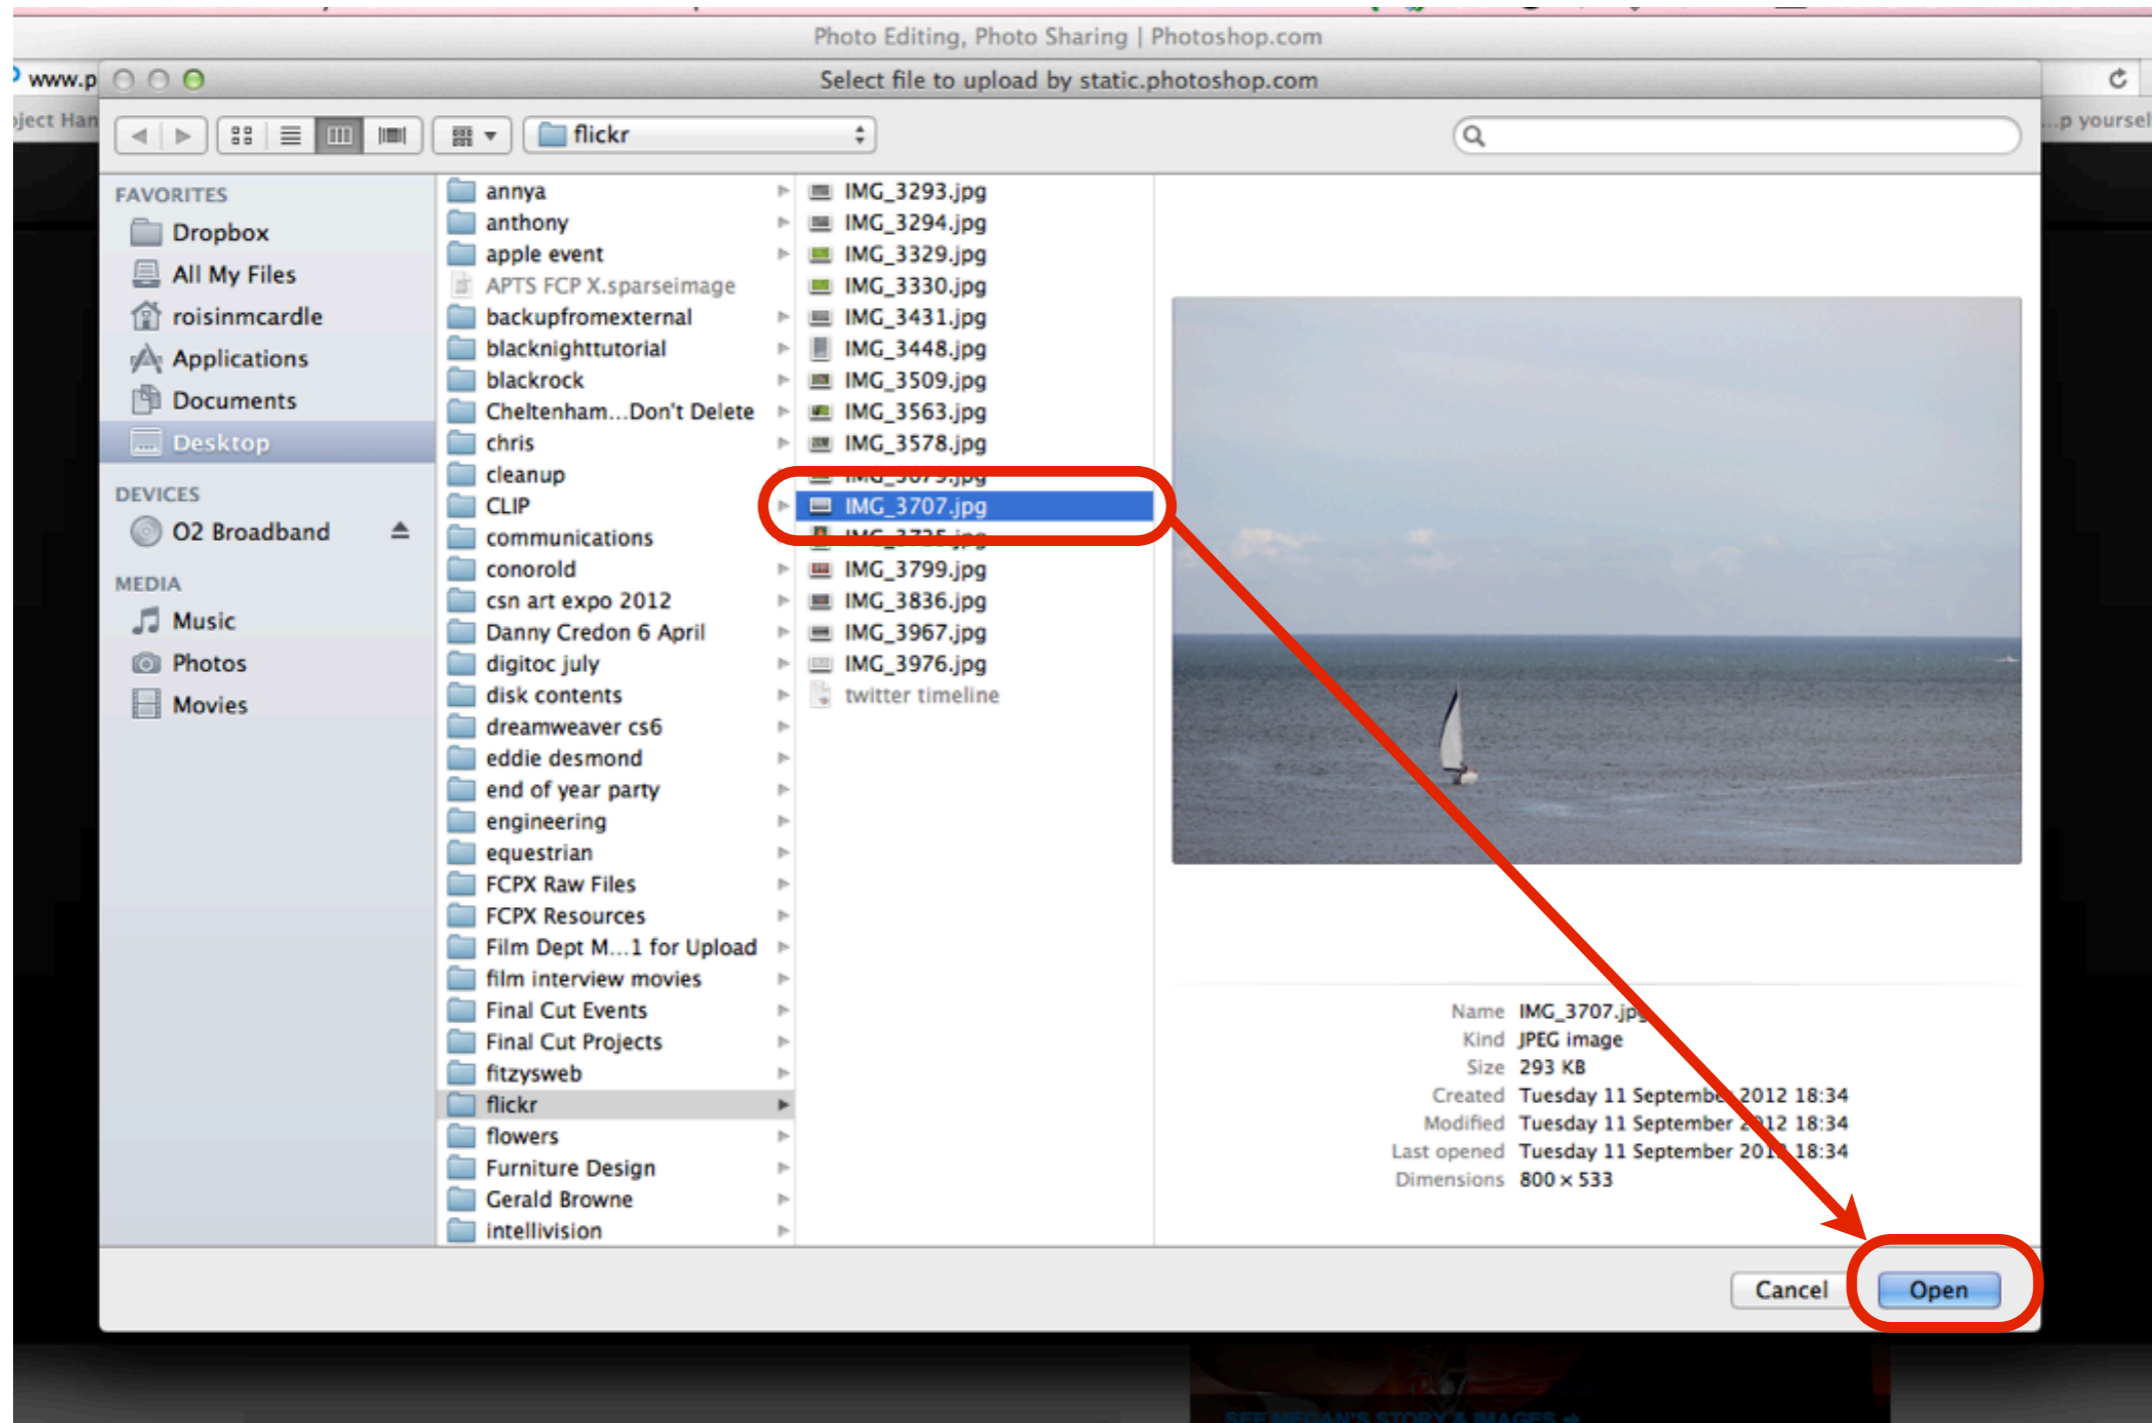

- Select **UPLOAD PHOTO**, choose a photo from your computer to edit

Choose a JPG file

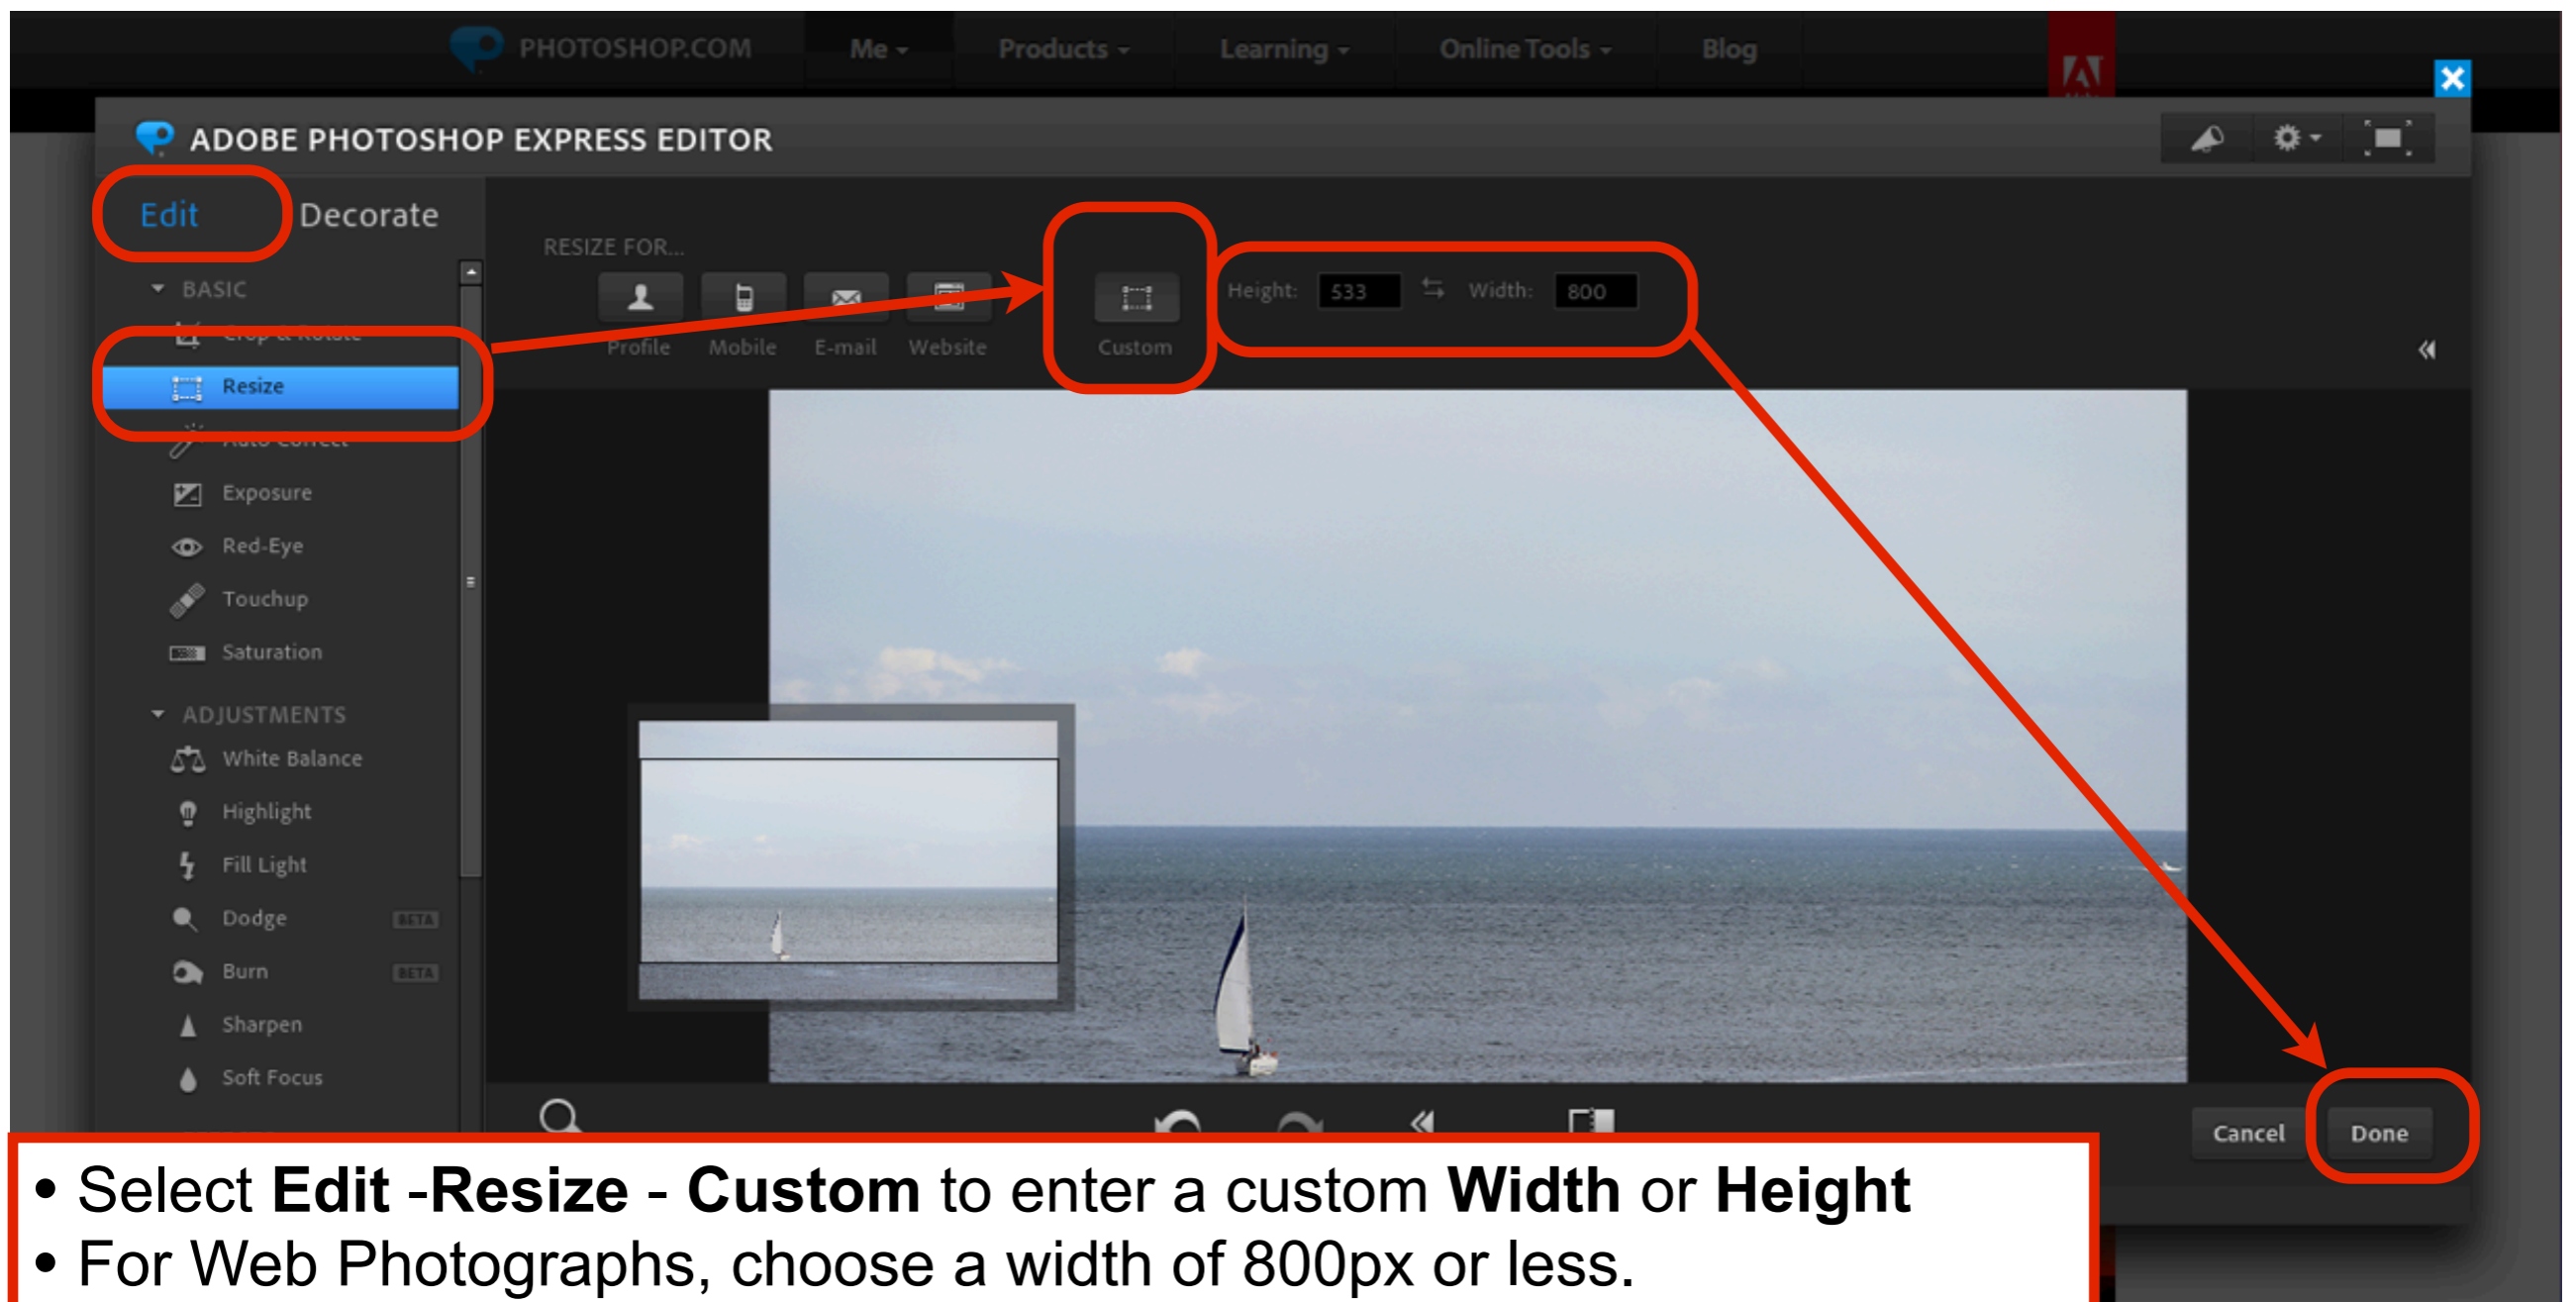

- Choose a photo from your computer to upload that is less than 16 megapixels in size and in JPEG, JPG format

Select a .JPG then Open

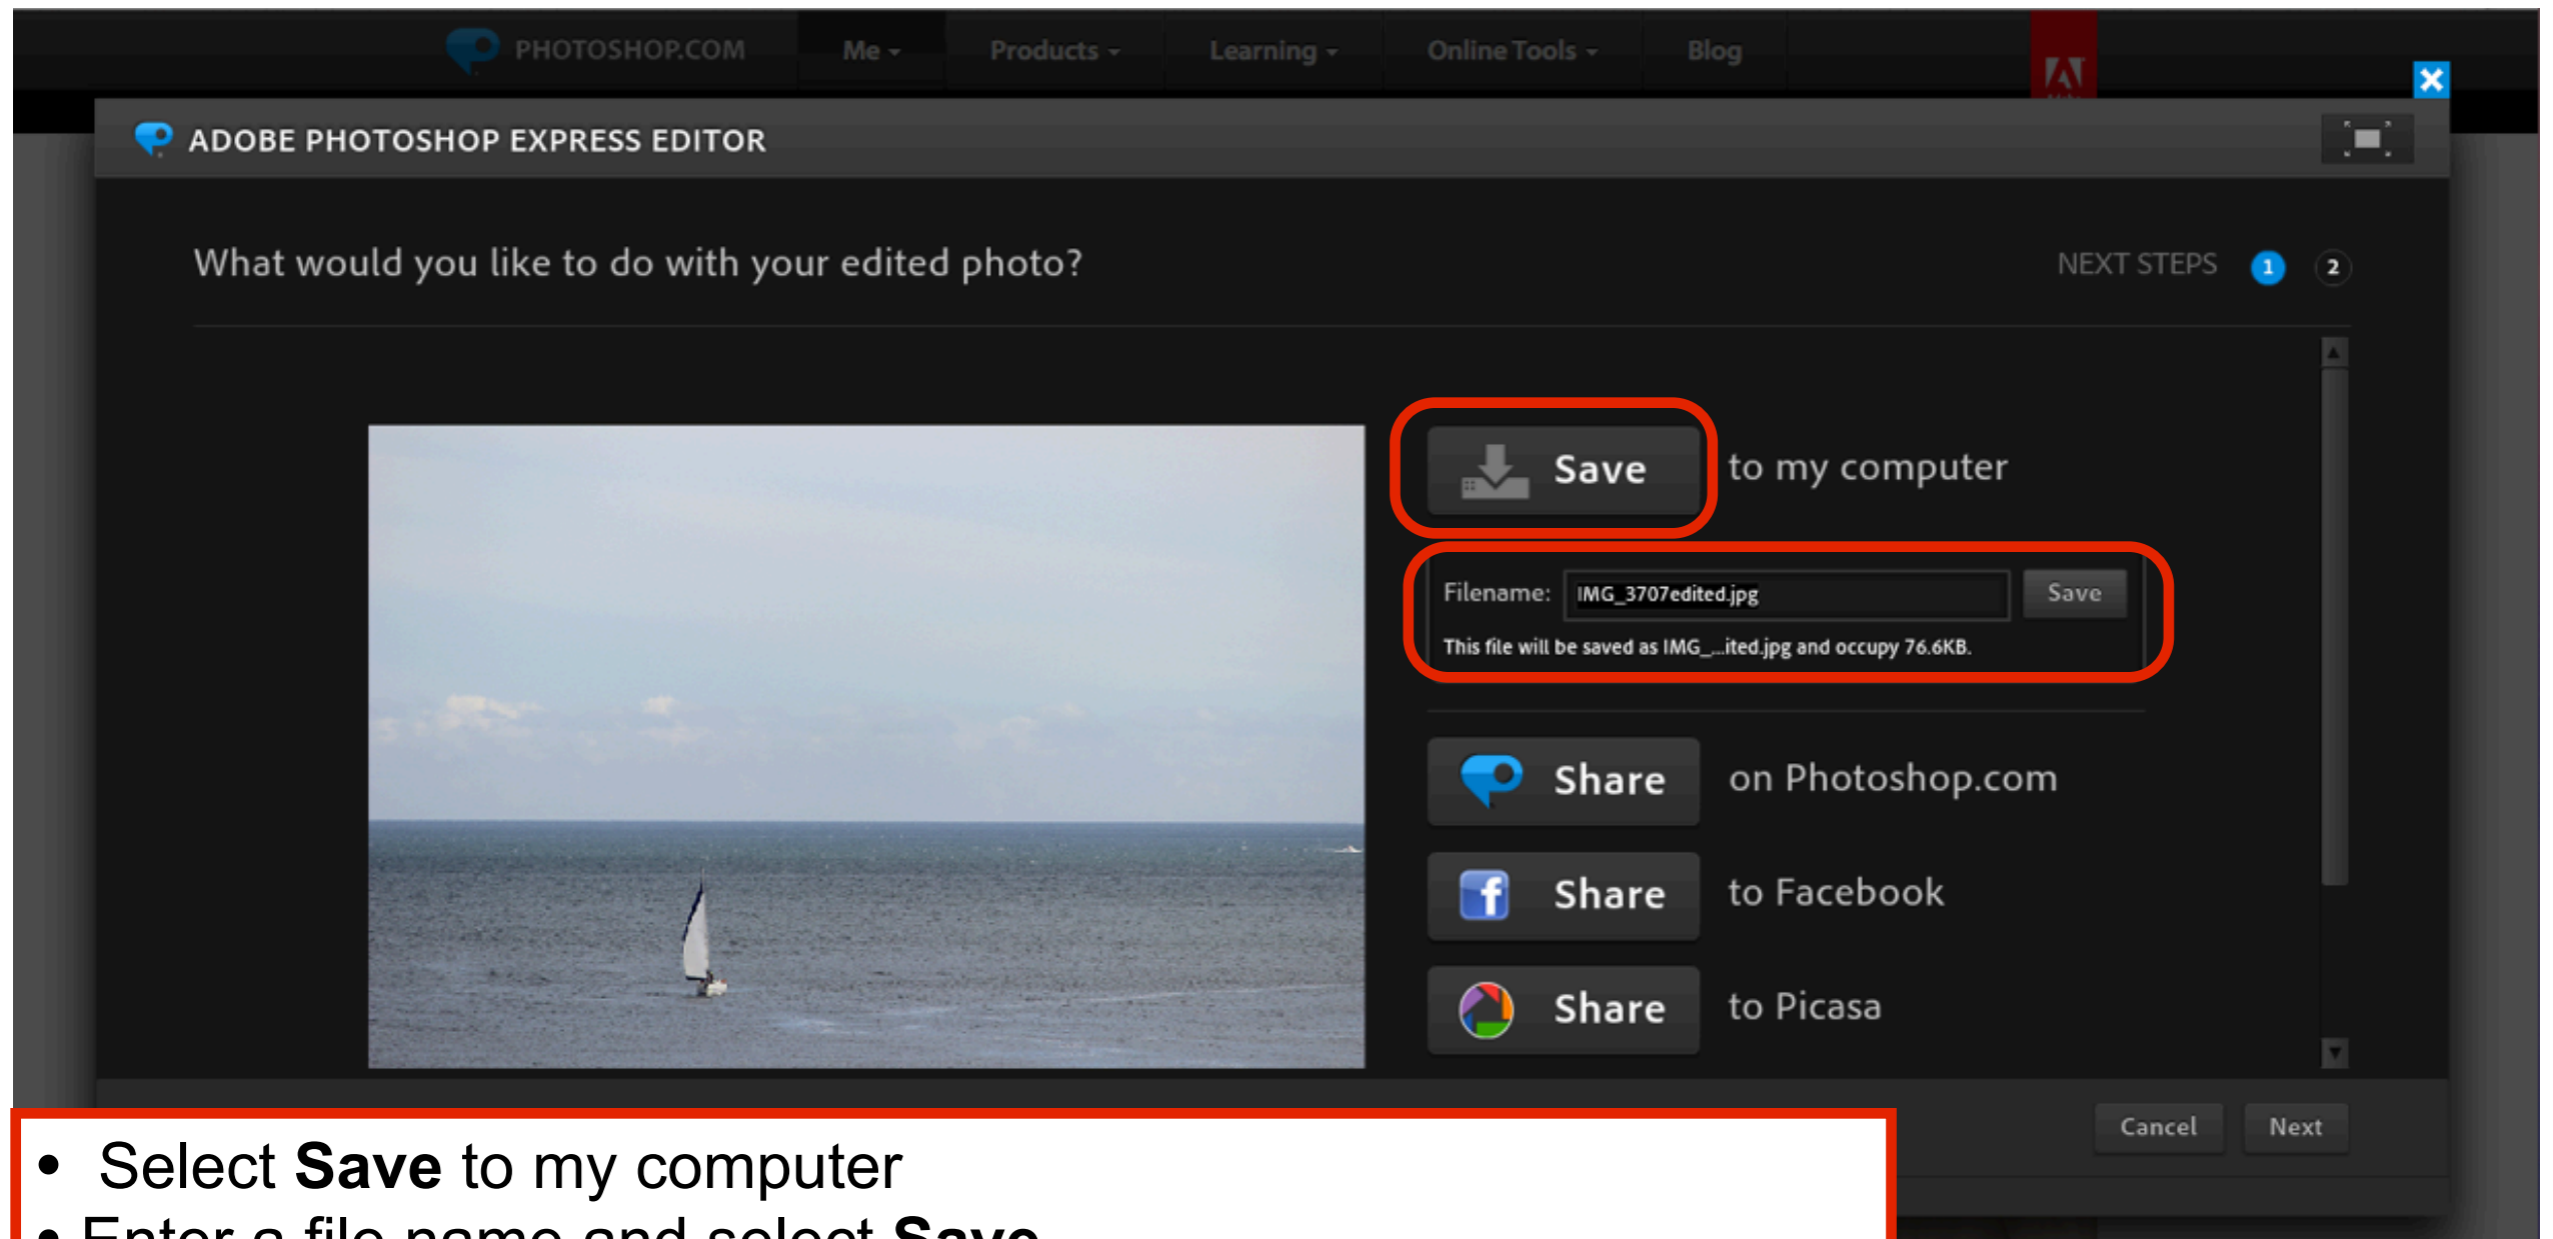

Select Edit - Resize

- Select **Edit - Resize - Custom** to enter a custom **Width** or **Height**
- For Web Photographs, choose a width of 800px or less.
- For Thumbnail images, choose a width of 200px or less.
- When you have completed the editing, select **Done**

Save the image

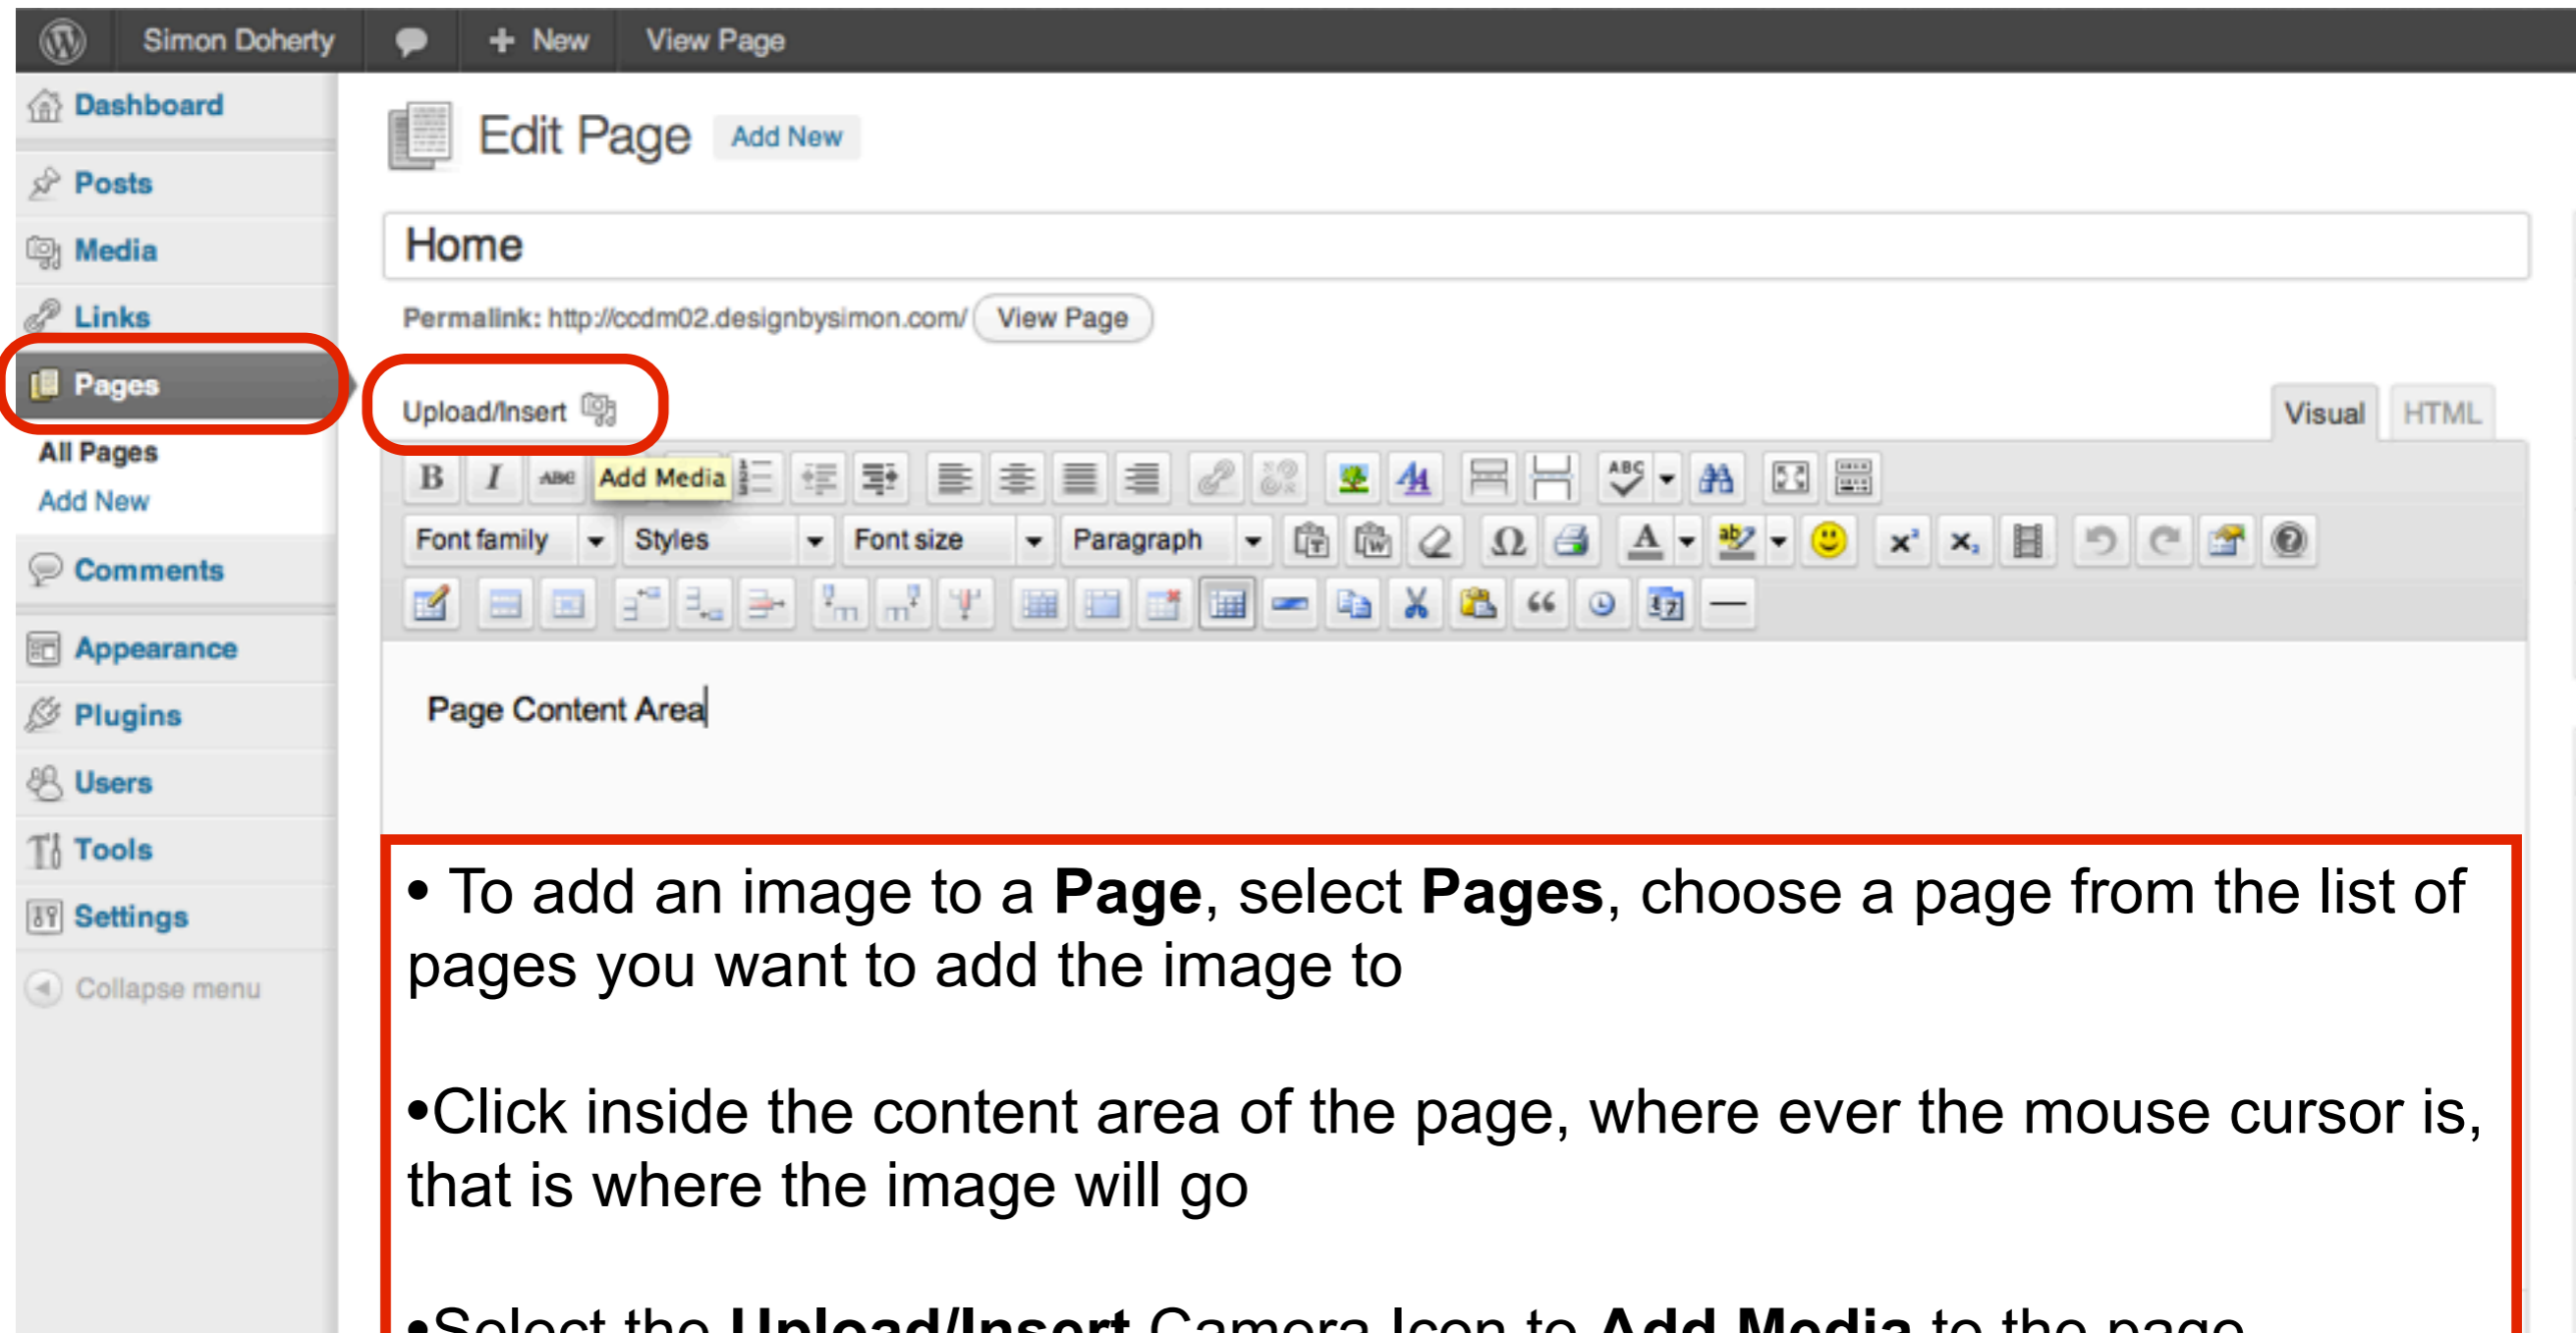

The screenshot shows the Adobe Photoshop Express Editor interface. At the top, there is a navigation bar with links for PHOTOSHOP.COM, Me, Products, Learning, Online Tools, and Blog. Below this, the main header reads 'ADOBE PHOTOSHOP EXPRESS EDITOR'. The central area displays a photo of a sailboat on the ocean with the text 'What would you like to do with your edited photo?'. To the right of the photo, there are several options: 'Save to my computer' (highlighted with a red box), a filename input field containing 'IMG_3707edited.jpg' with a 'Save' button (also highlighted with a red box), and three 'Share' buttons for 'on Photoshop.com', 'to Facebook', and 'to Picasa'. At the bottom right, there are 'Cancel' and 'Next' buttons. The 'NEXT STEPS' indicator shows steps 1 and 2.

- Select **Save** to my computer
- Enter a file name and select **Save**
- Choose a folder on your computer and save the file

How to add an image to a page

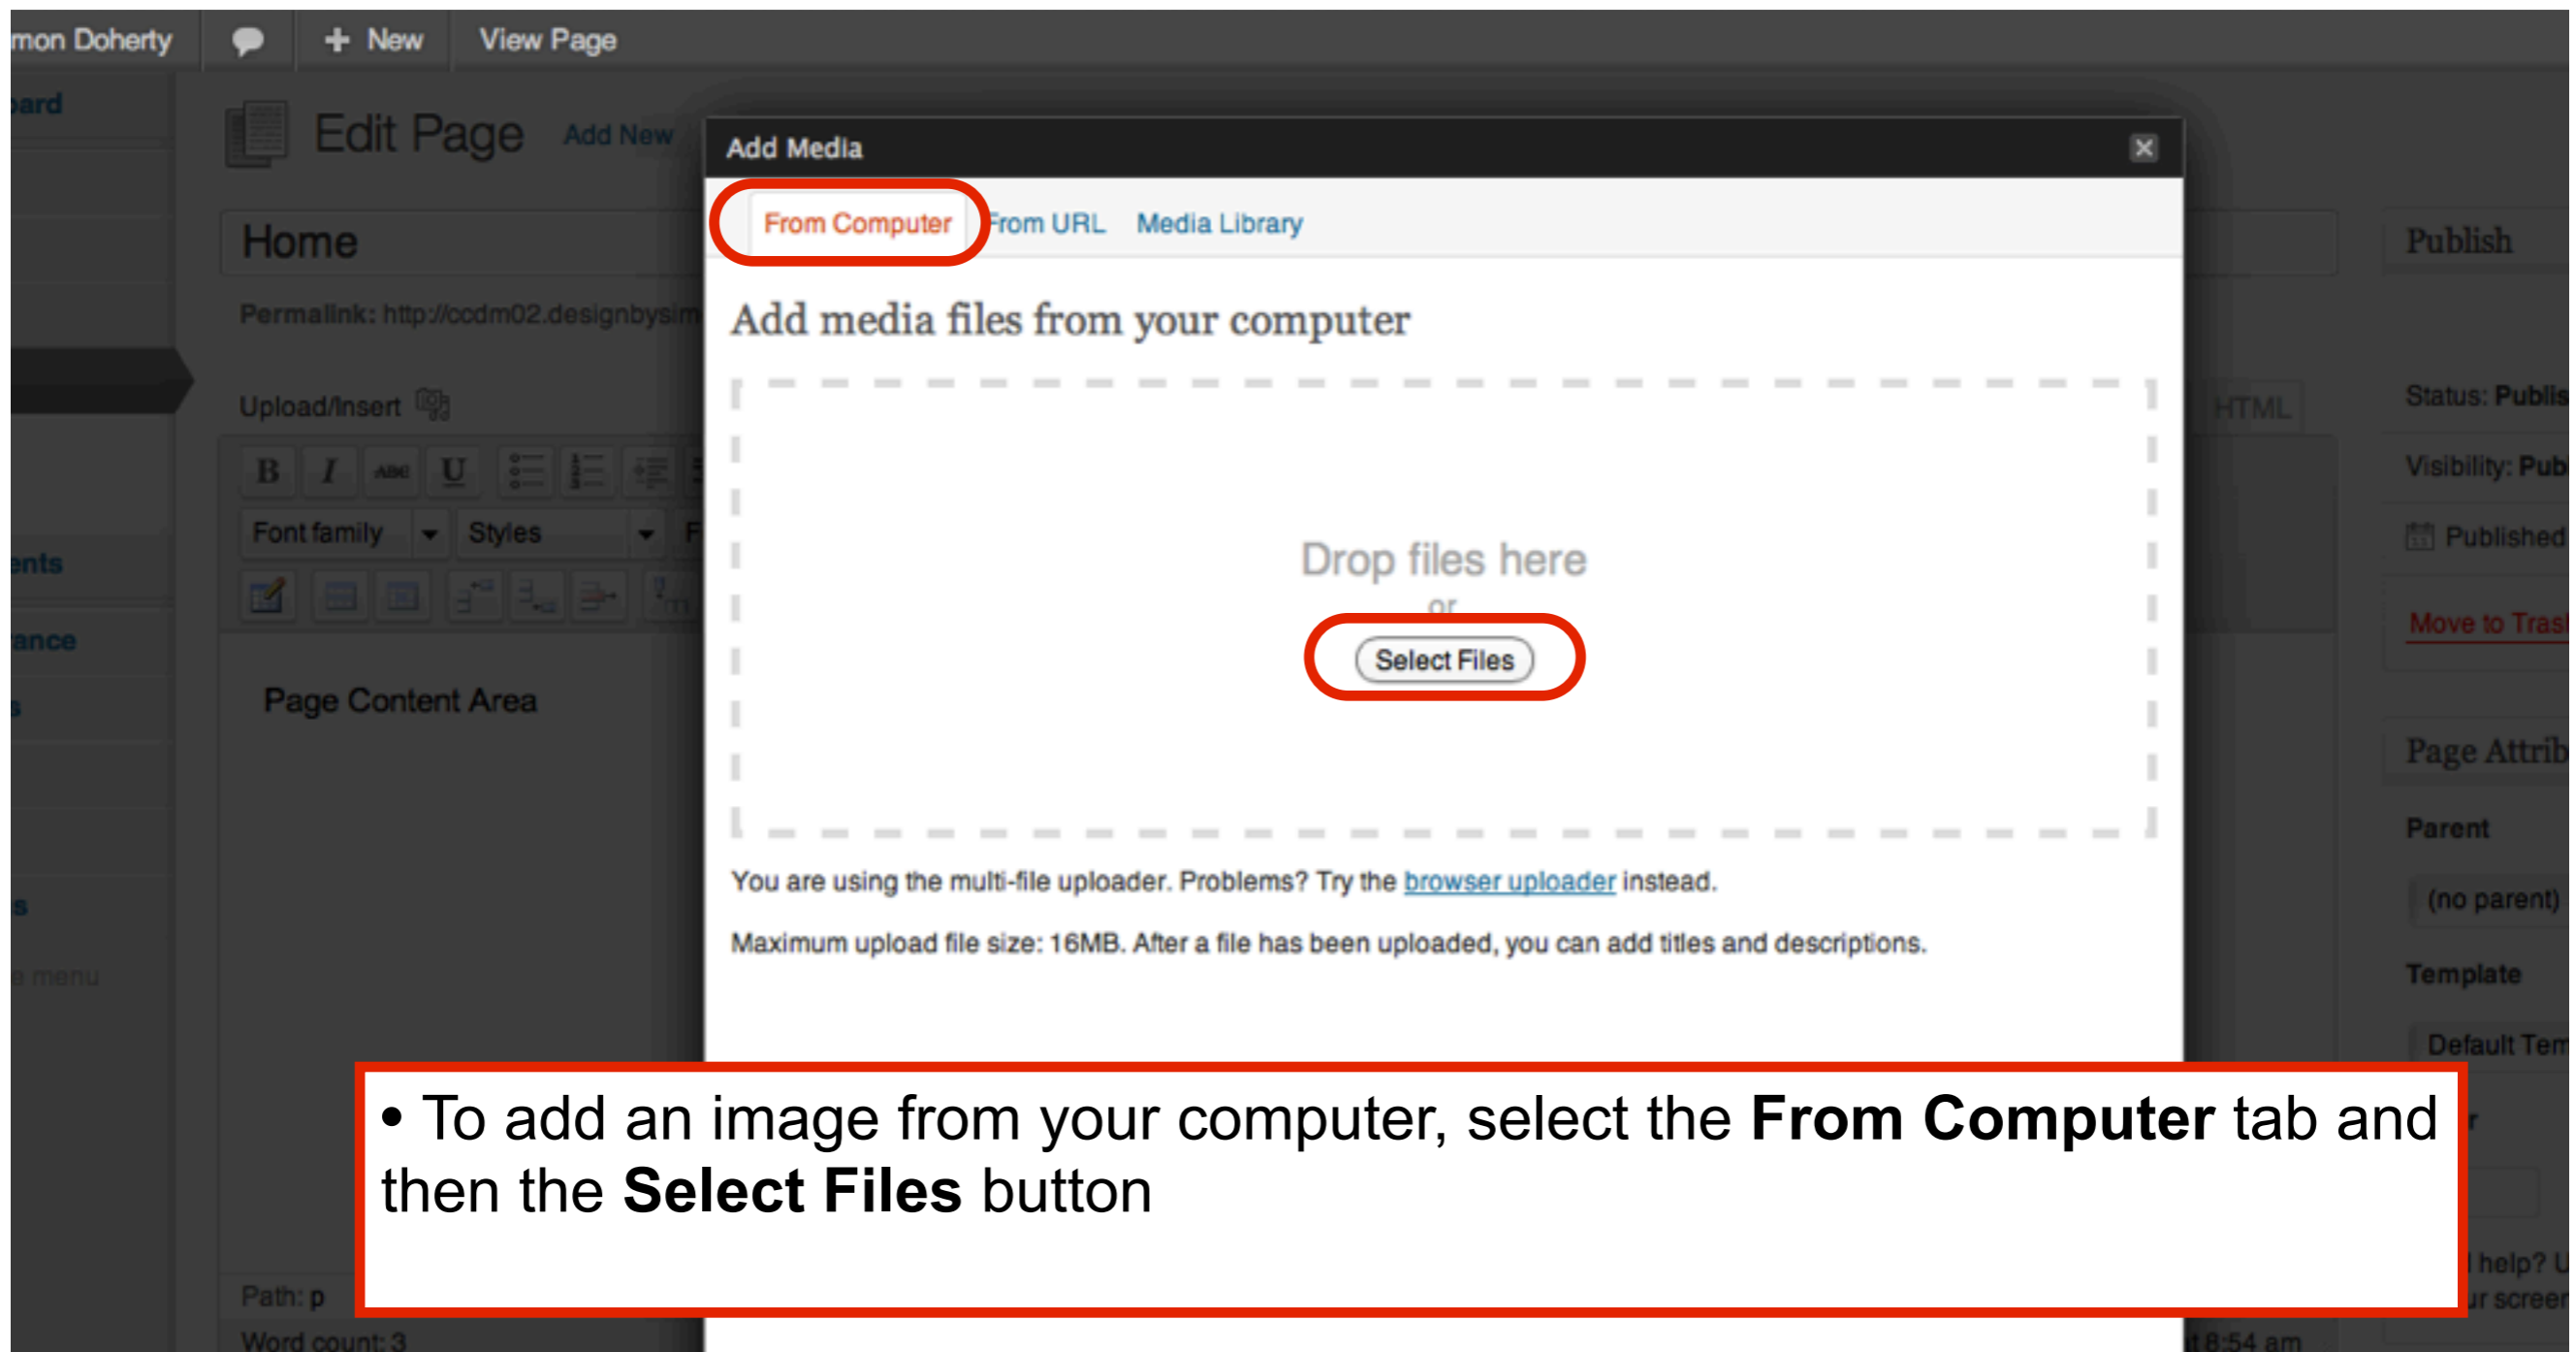

Select Upload/Insert

The screenshot shows the WordPress admin dashboard for a user named Simon Doherty. The left sidebar contains a menu with items: Dashboard, Posts, Media, Links, Pages (highlighted with a red circle), All Pages, Add New, Comments, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Edit Page' and shows the page title 'Home'. Below the title is a permalink field with the URL 'http://ccdm02.designbysimon.com/' and a 'View Page' button. The 'Upload/Insert' button in the editor toolbar is also circled in red. The toolbar includes options for Bold, Italic, Add Media, and various text and paragraph formatting tools. The page content area is currently empty, labeled 'Page Content Area'.

- To add an image to a **Page**, select **Pages**, choose a page from the list of pages you want to add the image to
- Click inside the content area of the page, where ever the mouse cursor is, that is where the image will go
- Select the **Upload/Insert** Camera Icon to **Add Media** to the page

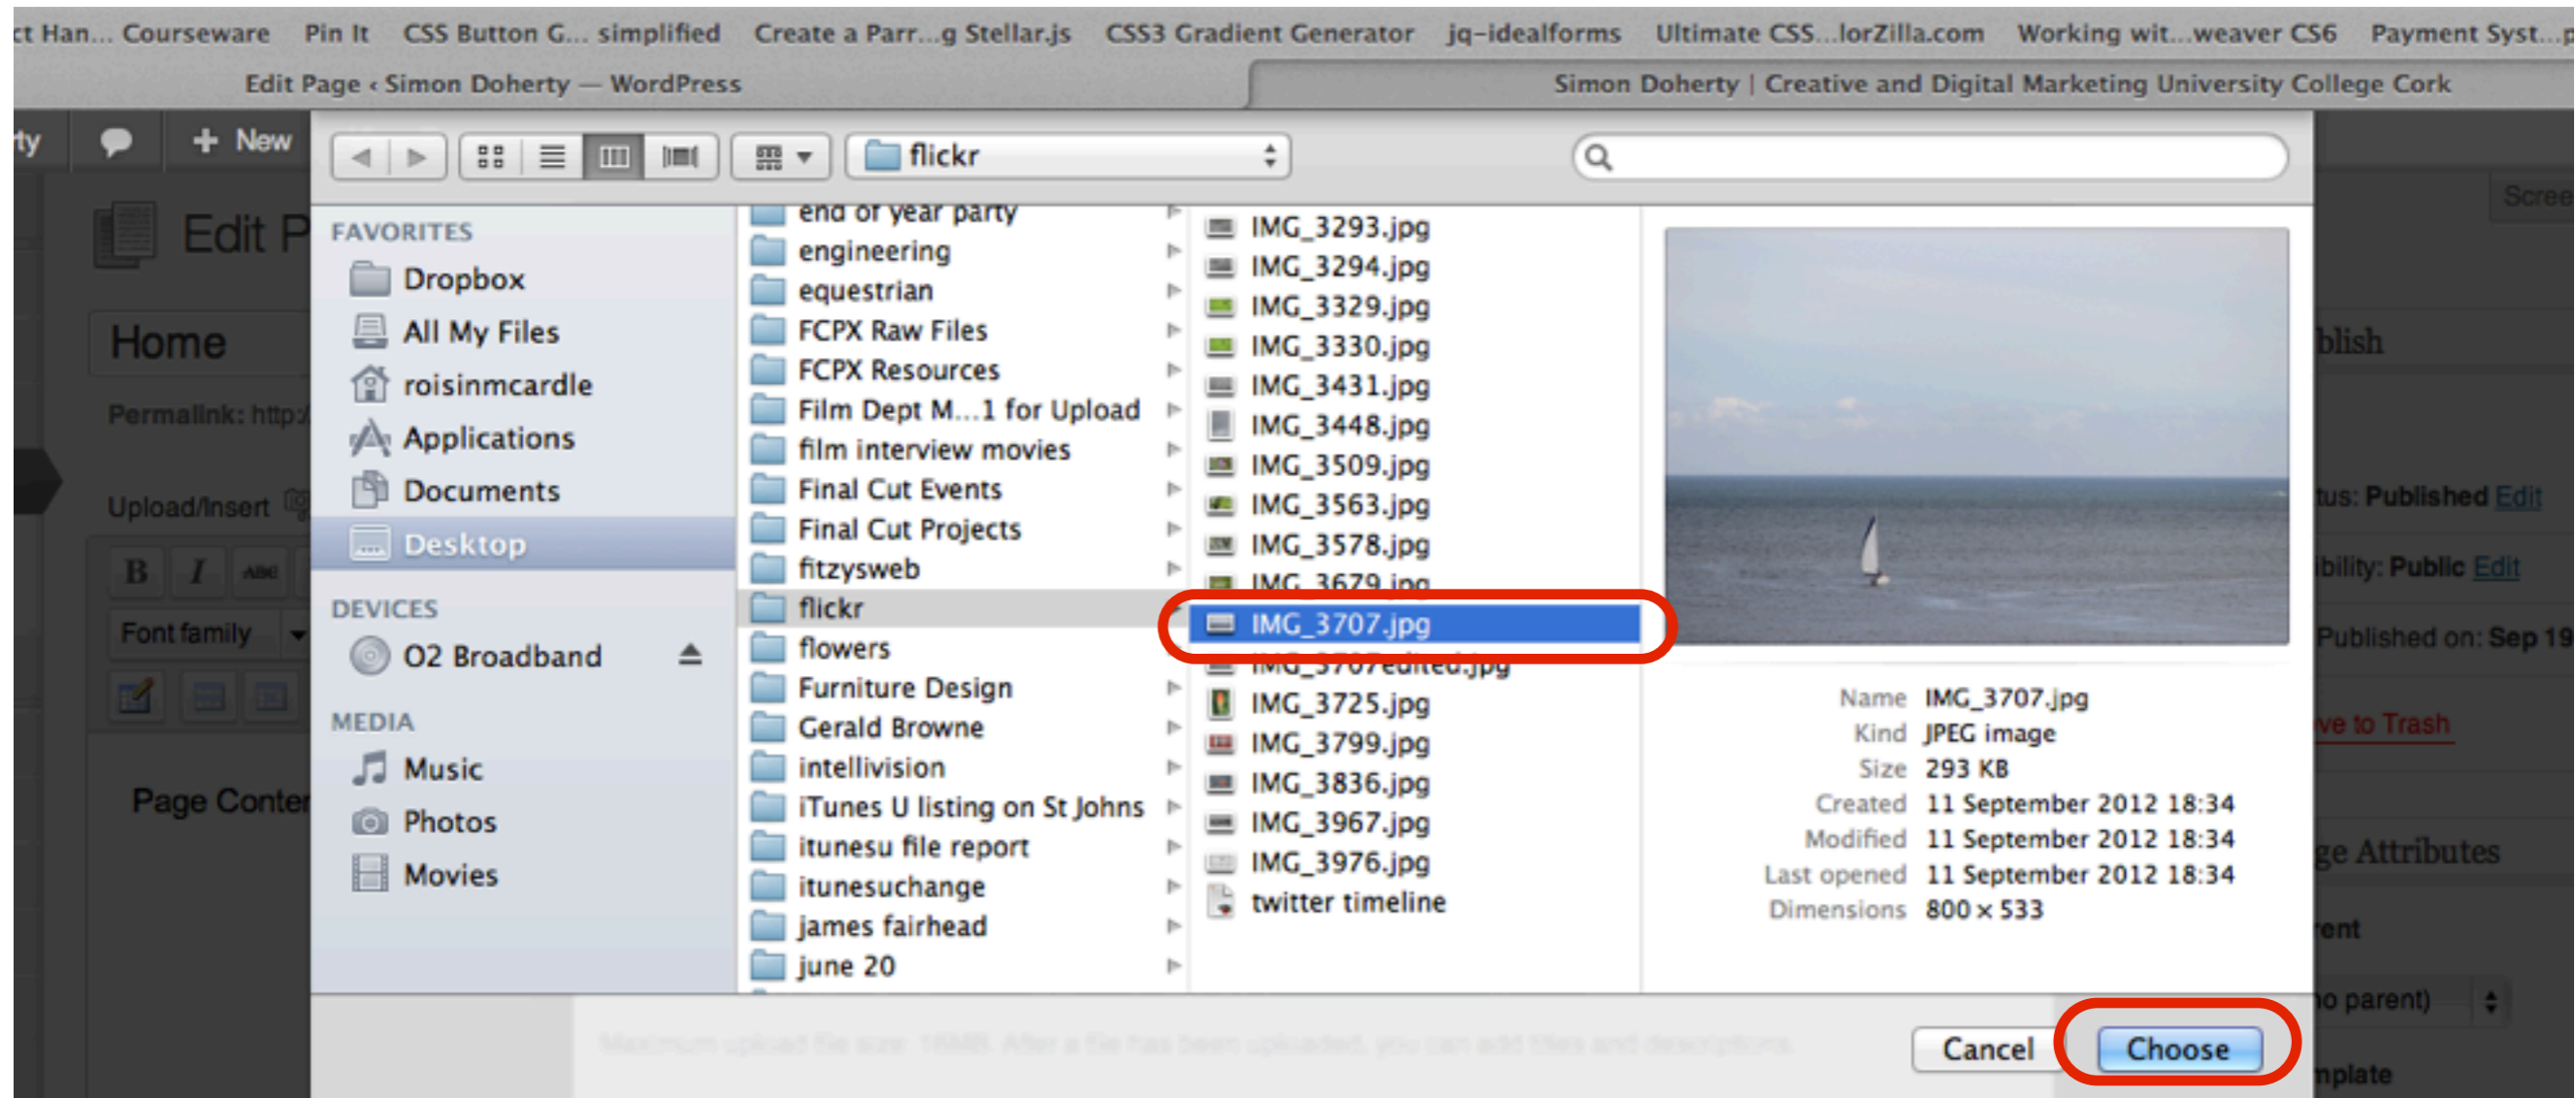

Select Files

The image shows a screenshot of a CMS interface. A modal window titled "Add Media" is open, displaying three tabs: "From Computer", "From URL", and "Media Library". The "From Computer" tab is selected and highlighted with a red circle. Below the tabs, the text "Add media files from your computer" is displayed above a large dashed rectangular area. Inside this area, the text "Drop files here" is centered, with "or" below it, and a "Select Files" button is highlighted with a red circle. Below the dashed area, there is a note: "You are using the multi-file uploader. Problems? Try the [browser uploader](#) instead." and "Maximum upload file size: 16MB. After a file has been uploaded, you can add titles and descriptions." The background shows a dark-themed CMS editor with various toolbars and a sidebar.

- To add an image from your computer, select the **From Computer** tab and then the **Select Files** button

Choose an image

- Select an image from your computer and select the **Choose** button
