

WordPress

It's not just for blogging anymore.

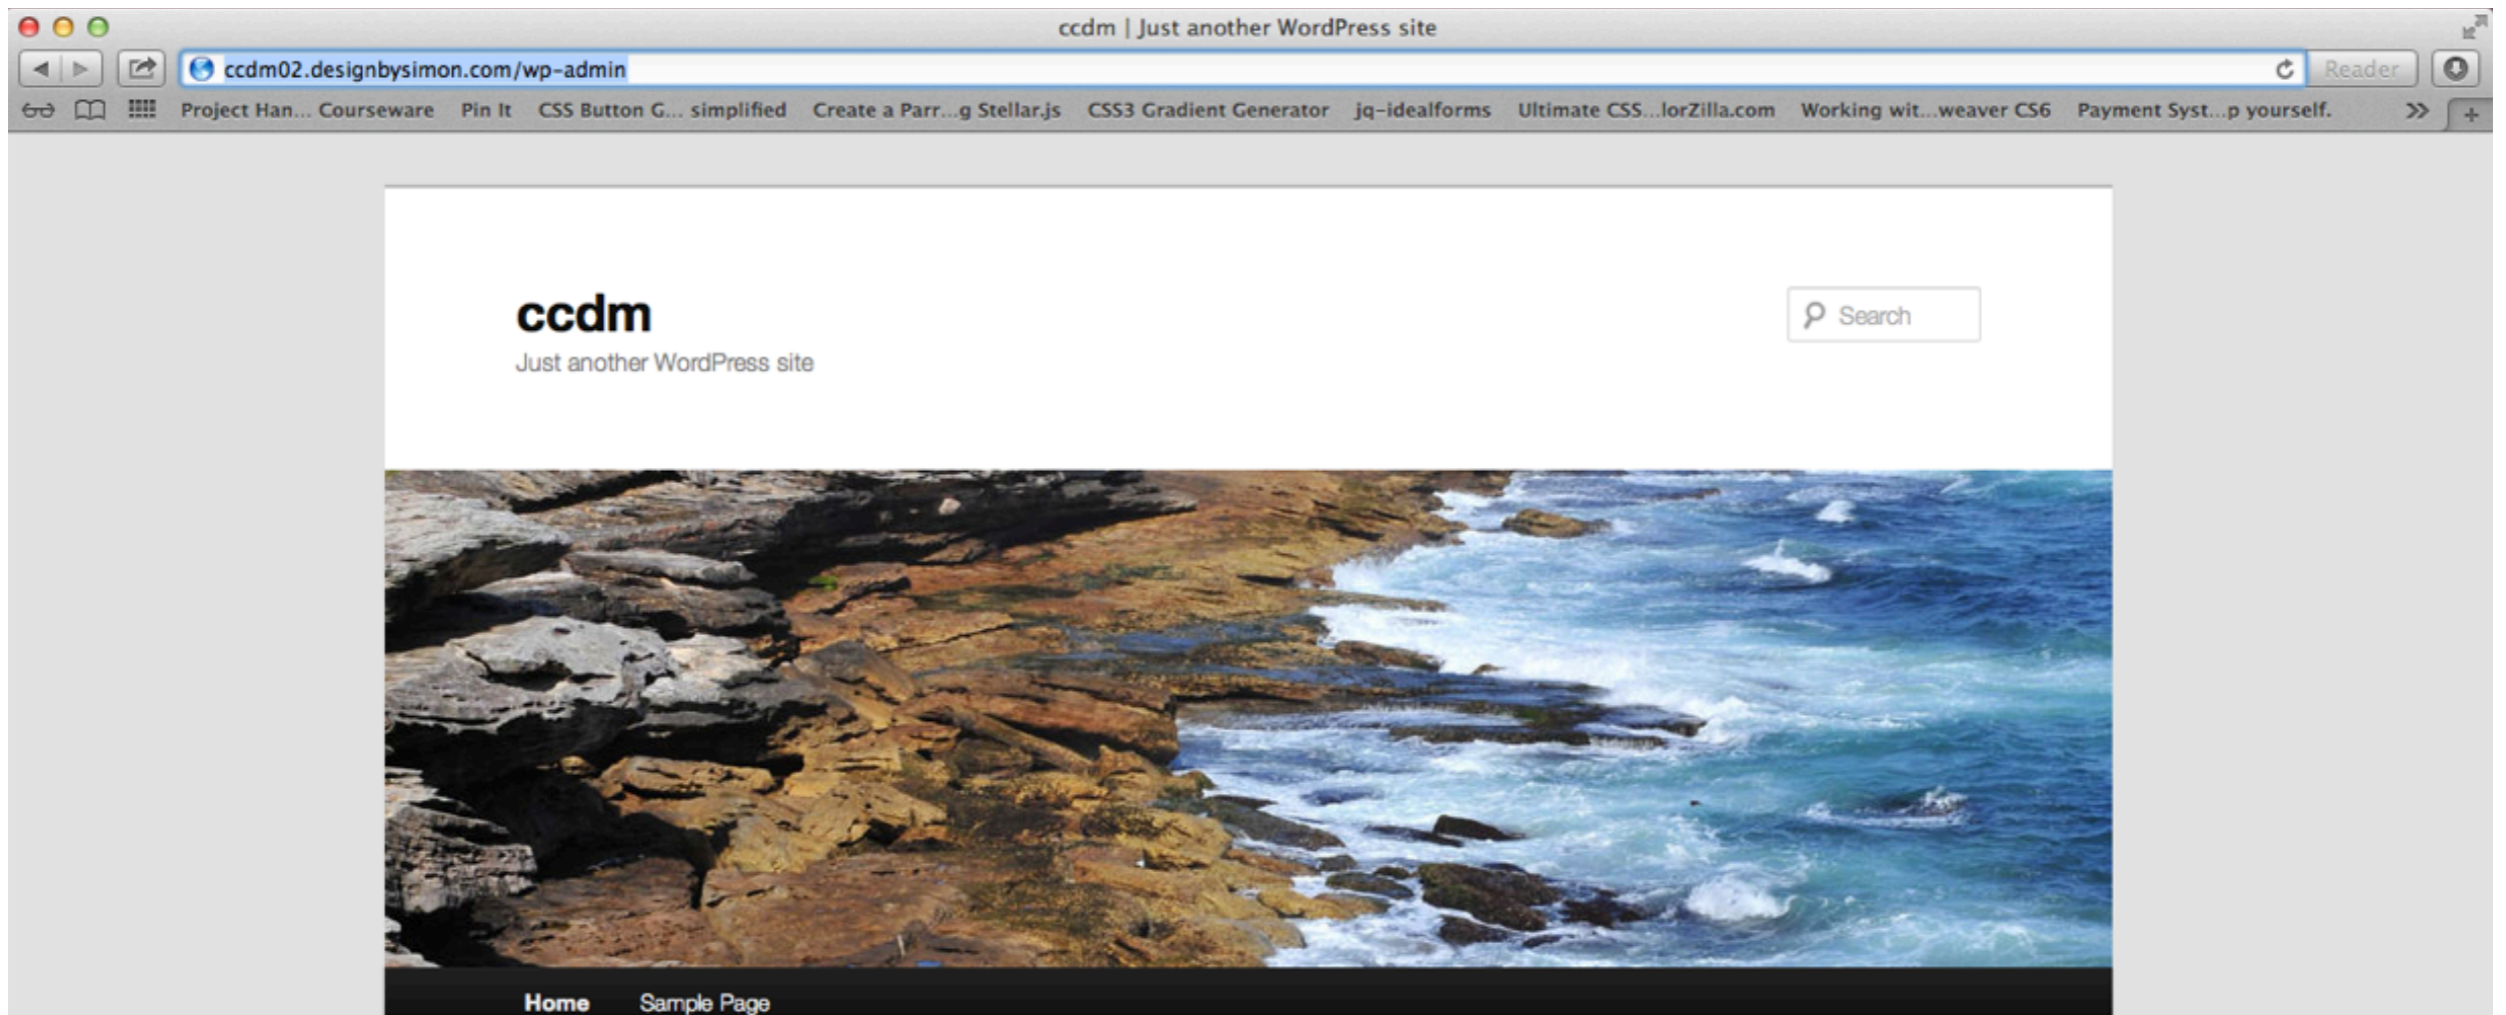

First Steps

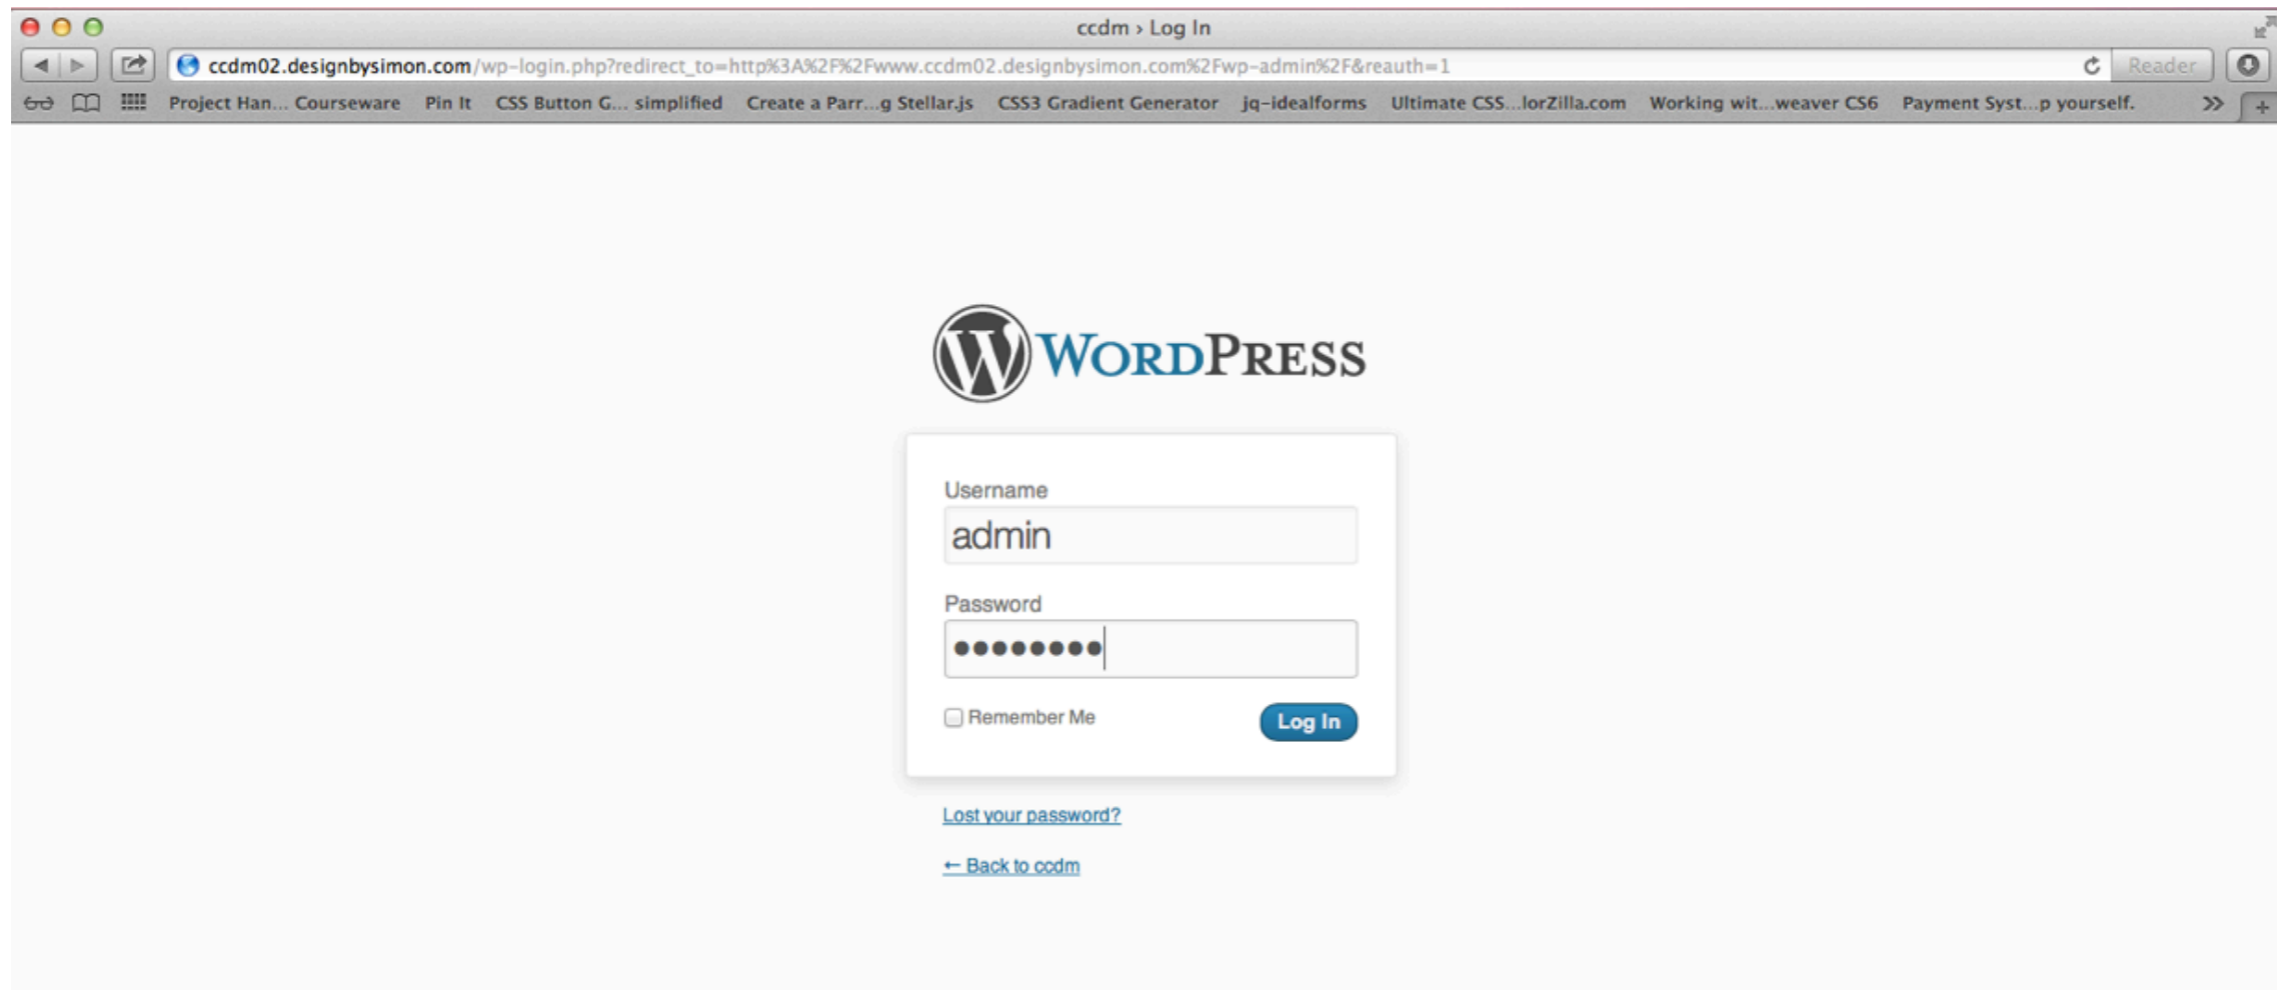

1. Check your email for details
2. Go to <http://yourname.creativeanddigitalmarketing.com>
3. This is the home page of your website

Add /wp-admin

1. To access the backend of your website, add **/wp-admin** to your web address
2. <http://yourname.creativeanddigitalmarketing.com/wp-admin>

Login

1. Login to your account
2. **Username:** admin
3. **Password:** password

WordPress Dashboard

The image shows a screenshot of the WordPress Dashboard for a user named 'admin'. The browser address bar shows 'ccdm02.designbysimon.com/wp-admin/'. The dashboard includes a left-hand menu with categories like Home, Updates, Posts, Media, Links, Pages, Comments, Appearance, Plugins, Users, Tools, and Settings. The main content area features a 'Welcome to your new WordPress site!' message, a 'WordPress Version 3.4.2' logo, and three primary action boxes: 'Basic Settings', 'Add Real Content', and 'Customize Your Site'. In the top right corner, the user's name 'Howdy, admin' is displayed. Red annotations highlight the left-hand menu and the 'Howdy, admin' user profile. A red-bordered text box in the bottom right corner contains the following instructions:

- To add pages, themes and plugins, use the left side **Dashboard** menu
- To log out, select **Howdy, admin** at the top right of the dashboard

Change your Permalinks

The screenshot shows the WordPress dashboard with the 'Permalink Settings' page open. The left sidebar contains a menu with 'Settings' and 'Permalinks' highlighted with red circles. The main content area shows the 'Permalink Settings' page with the 'Post name' option selected and circled in red. The 'Save Changes' button at the bottom is also circled in red.

- In your Wordpress Dashboard select **Settings - Permalinks**

- In the **Permalink Settings** section, select **Post Name**

- or a URL format that's easy to search and use, instead of the Default numerical setting

<http://marketing/home>

is better than

<http://marketing/?p-123867>

- Select **Save Changes**

Create pages

The screenshot shows the WordPress dashboard for user 'ccdm'. The left sidebar contains various menu items: Dashboard, Posts, Media, Links, Pages, All Pages, Add New, Comments, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The 'Pages' menu item is highlighted with a red circle. Below it, the 'Add New' button is also circled in red. The main content area displays the 'Pages' section with an 'Add New' button. Below this, there are filters for 'All (1) | Published (1)', 'Bulk Actions', 'Apply', 'Show all dates', and 'Filter'. A table lists existing pages:

<input type="checkbox"/>	Title	Author
<input type="checkbox"/>	Sample Page	admin
<input type="checkbox"/>	Title	Author

At the bottom of the table, there are 'Bulk Actions' and 'Apply' buttons.

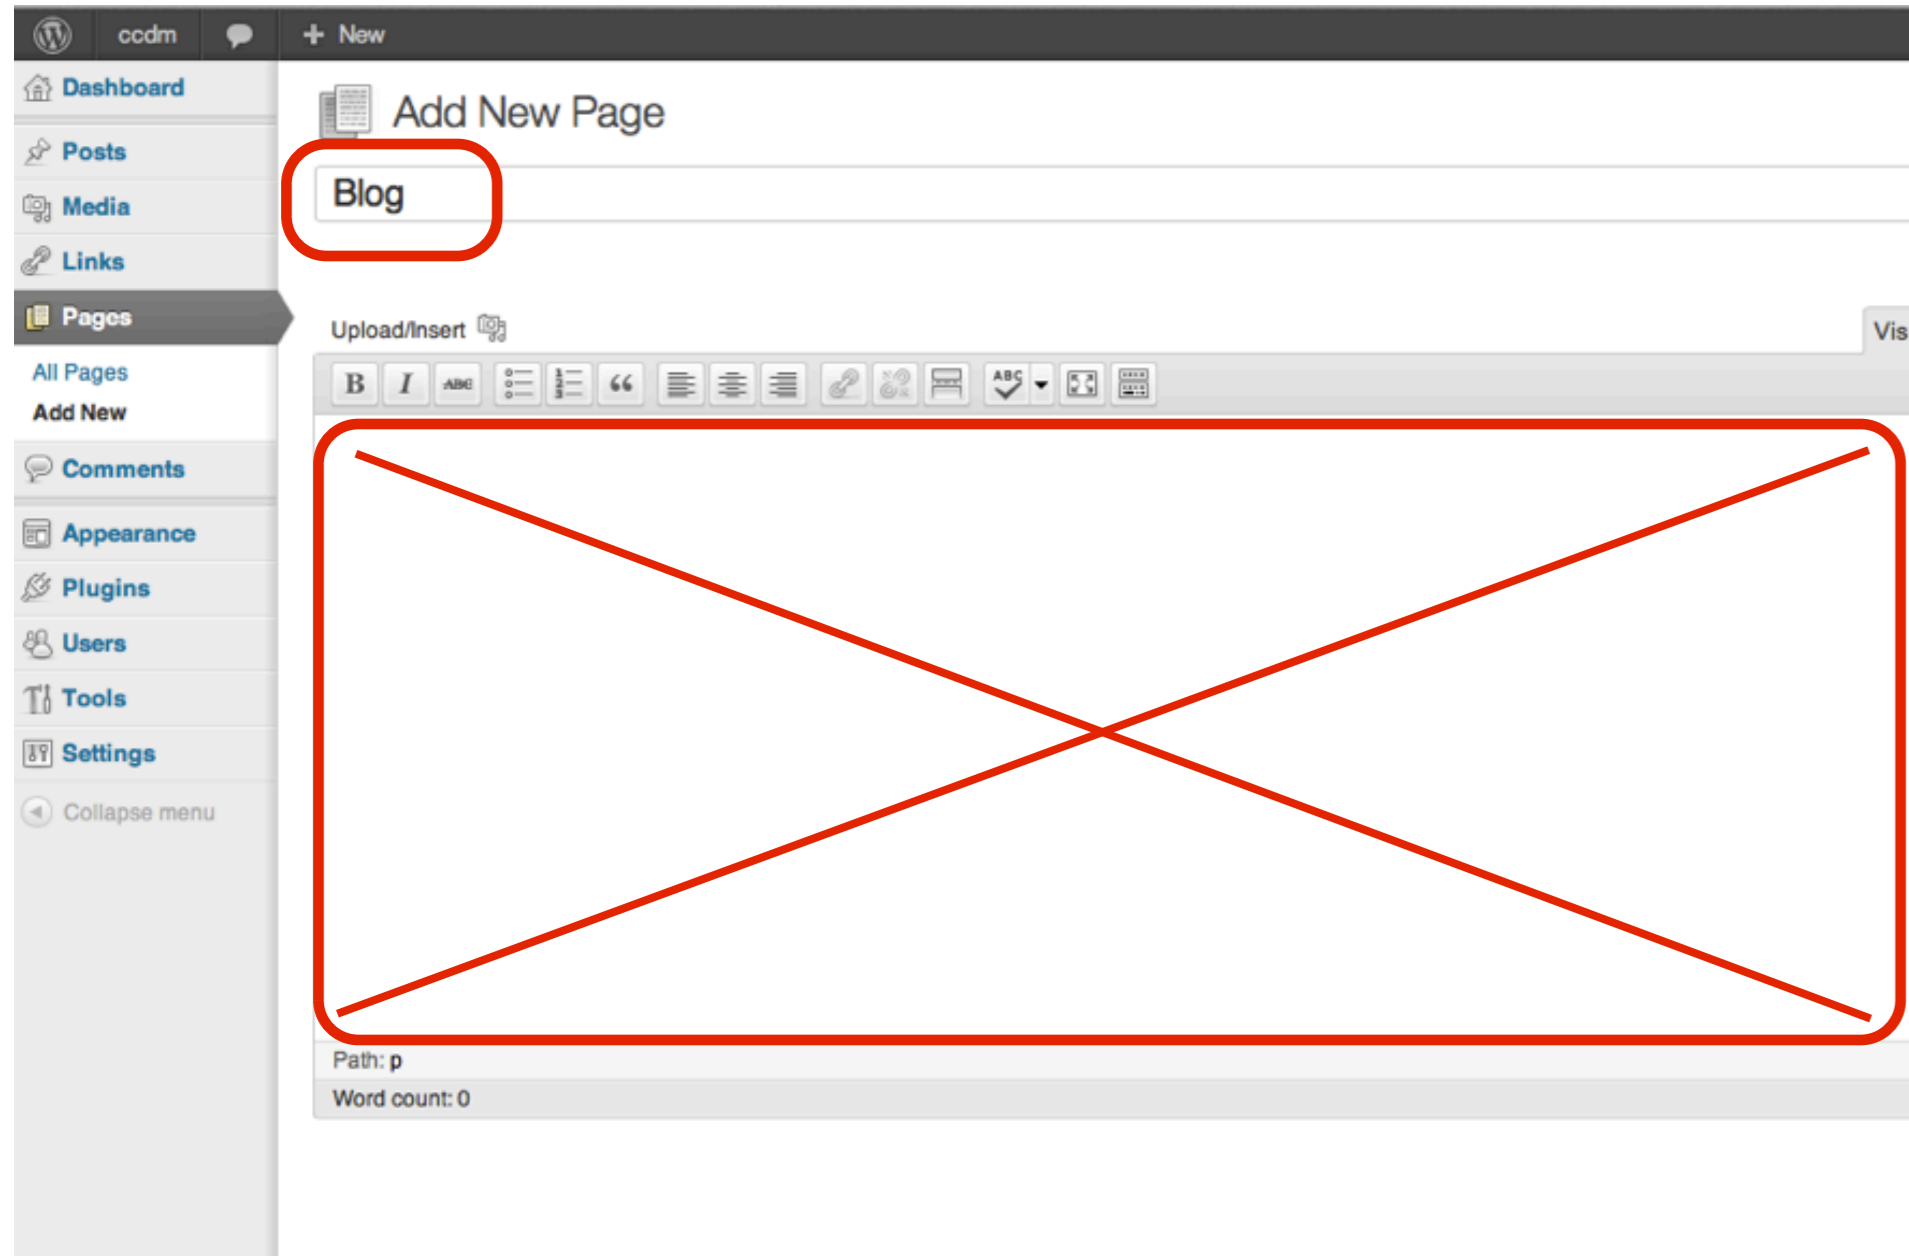

- To create a new web Page, select **Pages - Add New**

Create Home page

The screenshot shows the WordPress 'Add New Page' editor. The title field is set to 'Home'. The 'Visual' tab is selected above the 'Page Content Area'. The 'Publish' button is highlighted in the right sidebar.

- In the **Add New Page** section, add a title for your web page in the title text field
- Select the **Visual** tab above the page content area and enter the contents of your page in the Page Content Area
- Select **Publish** to save your web page

Leave Blog page content blank

The screenshot shows the WordPress 'Add New Page' editor. The 'Blog' template is selected in the 'Add New Page' dropdown menu. The main content area is a large white box with a red 'X' drawn across it, indicating it should be left blank. The left sidebar shows the 'Pages' menu with 'Add New' selected. The right sidebar shows the 'Template' dropdown set to '(no parent)', 'Default Template', and 'Order' set to 0. The bottom status bar shows 'Path: p' and 'Word count: 0'.

- When you create you **Blog** page, leave the page content empty
- WordPress automatically fills this page with you Blog Posts

Change Reading Settings

The screenshot shows the WordPress admin interface for the 'Reading Settings' page. The left sidebar contains a menu with 'Settings' and 'Reading' highlighted with red circles. A red arrow points from the 'Reading' menu item to the 'Save Changes' button at the bottom of the settings form. The main content area shows the 'Front page displays' section with the following options:

- Your latest posts
- A static page (select below)

Under the 'A static page' option, there are two dropdown menus:

- Front page: Home
- Posts page: Blog

Other settings visible include 'Blog pages show at most' (10 posts), 'Syndication feeds show the most recent' (10 items), 'For each article in a feed, show' (Full text selected), and 'Encoding for pages and feeds' (UTF-8). A yellow banner at the top of the settings area says 'Settings saved.'

- Select **Settings - Reading** to choose the home page for your website

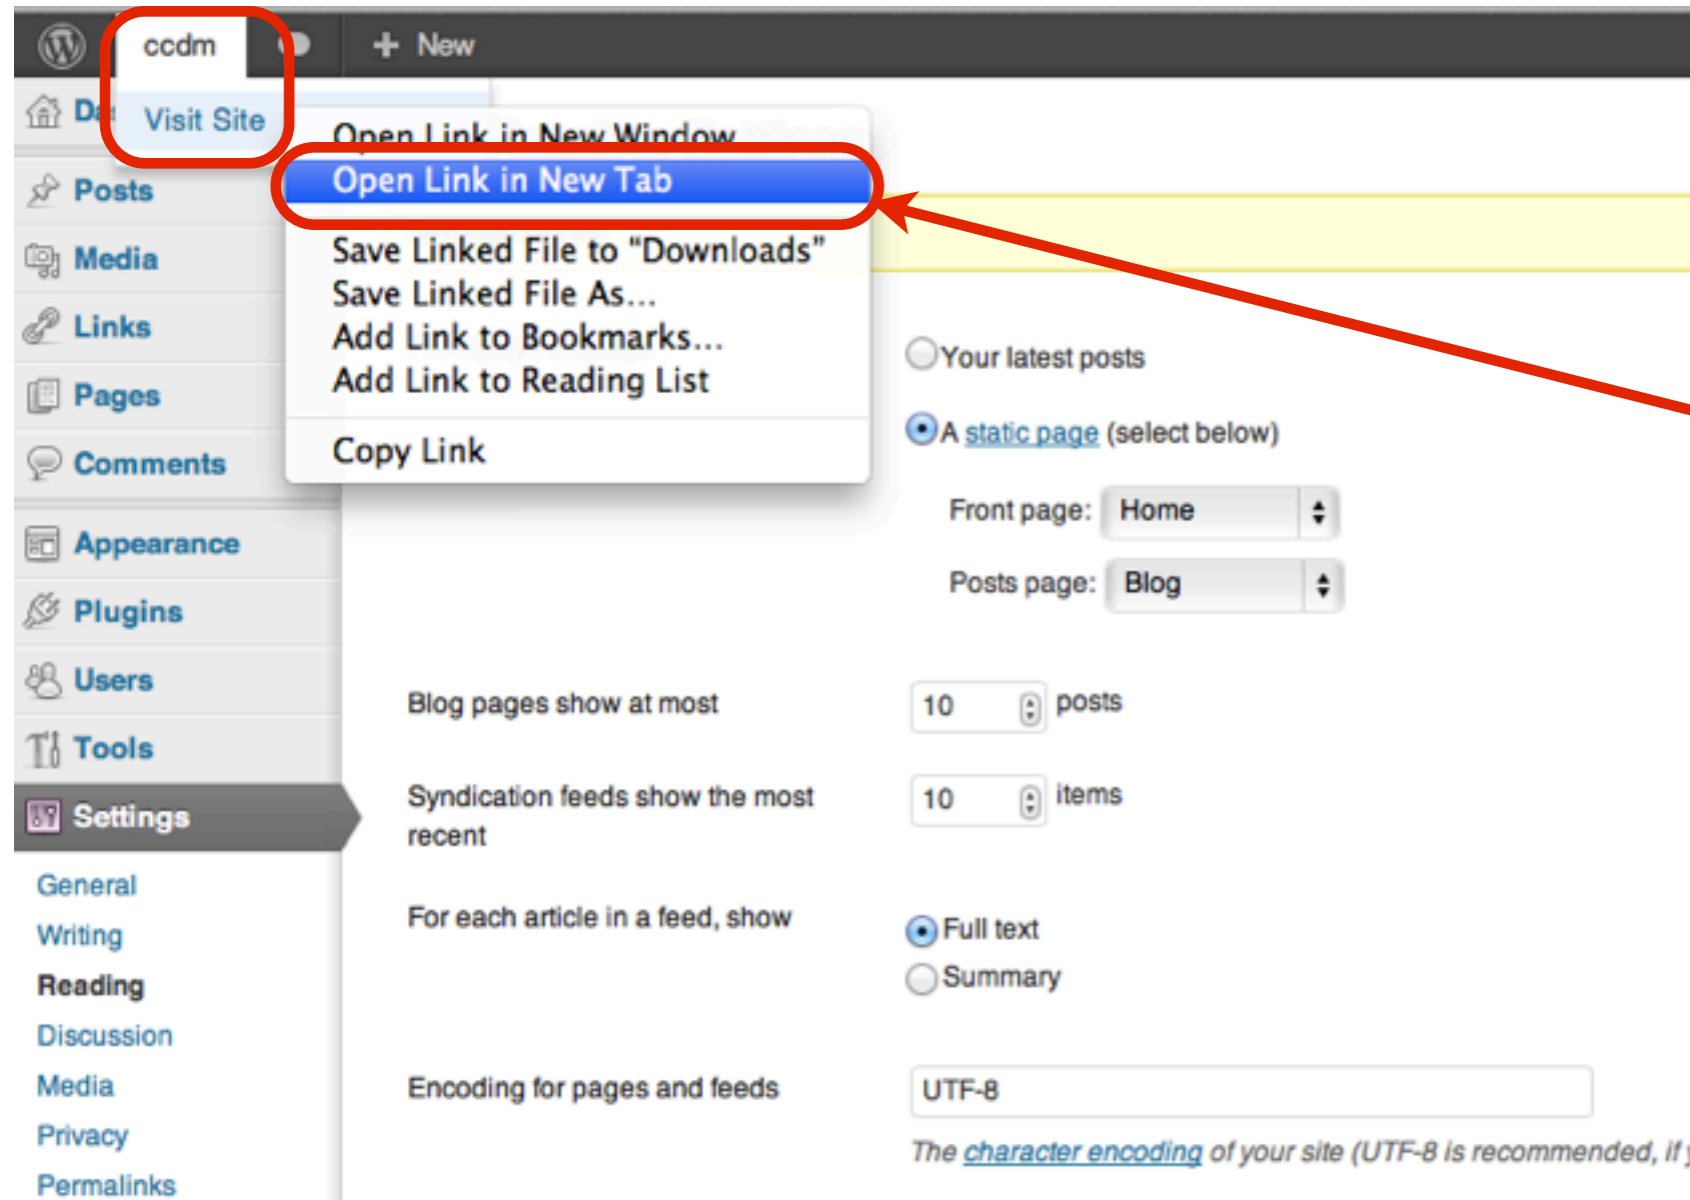

- Select the radio button:
A static page

- For **Front page**: choose your **Home** page from the drop down menu

- For **Posts page**: choose your **Blog** page

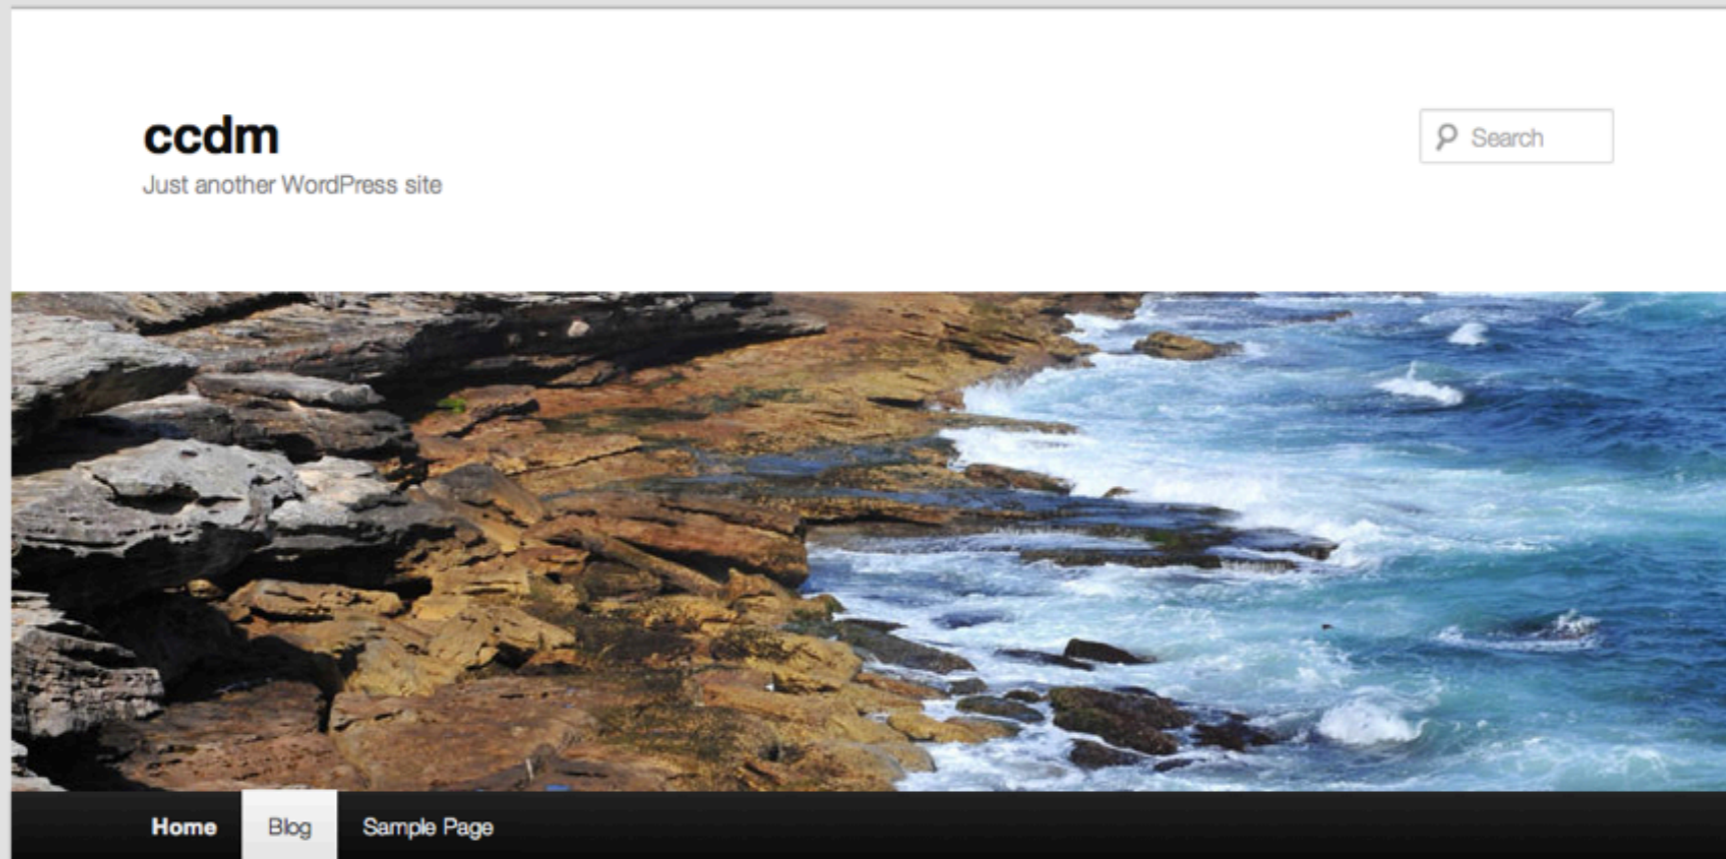

- Select **Save Changes**

View your website

- When you have updated your **Reading Settings**, select your website name at the top of the dashboard and choose **View Site**, or right click / ctrl-click to select **Open Link in New Tab**

Check for Permalink Errors

- Check that your **Home** page appears as the first page in your website
- Check that your **Blog** page is displaying the default blog post “Hello World”
- Check that these pages appear in the menu and that the menu links work

Change User Details

The screenshot shows the WordPress Admin Dashboard with the 'Users' menu item highlighted in the left sidebar. The 'Your Profile' sub-menu item is also highlighted. The main content area displays the 'Profile' settings page, which is divided into sections: 'Personal Options', 'Name', and 'Contact Info'. The 'Name' section contains input fields for 'Username' (admin), 'First Name' (Simon), 'Last Name' (Doherty), 'Nickname (required)' (admin), and 'Display name publicly as' (admin). The 'Contact Info' section contains an input field for 'E-mail (required)' (artbysimon@yahoo.com). A red arrow points from a text box on the right to the 'First Name' input field.

- To change your profile settings, select **Users - Your Profile**

Here you can change your name, email and contact details

Make a new Password

The screenshot shows a user profile page with the following sections:

- Contact Info**
 - E-mail (required): artbysimon@yahoo.com
 - Website: [empty]
 - AIM: [empty]
 - Yahoo IM: [empty]
 - Jabber / Google Talk: [empty]
- About Yourself**
 - Biographical Info: [empty]
- New Password**
 - Field 1: [password mask] *If you would like to change the password type a new one. Otherwise leave this blank.*
 - Field 2: [password mask] *Type your new password again.*
 - Strength: Medium *Hint: The password should be at least seven characters long. To make it stronger, use upper and lower case letters, numbers % ^ &).*

A red box highlights the 'New Password' section, and a red arrow points from the text box to the password fields. The 'Update Profile' button is also circled in red.

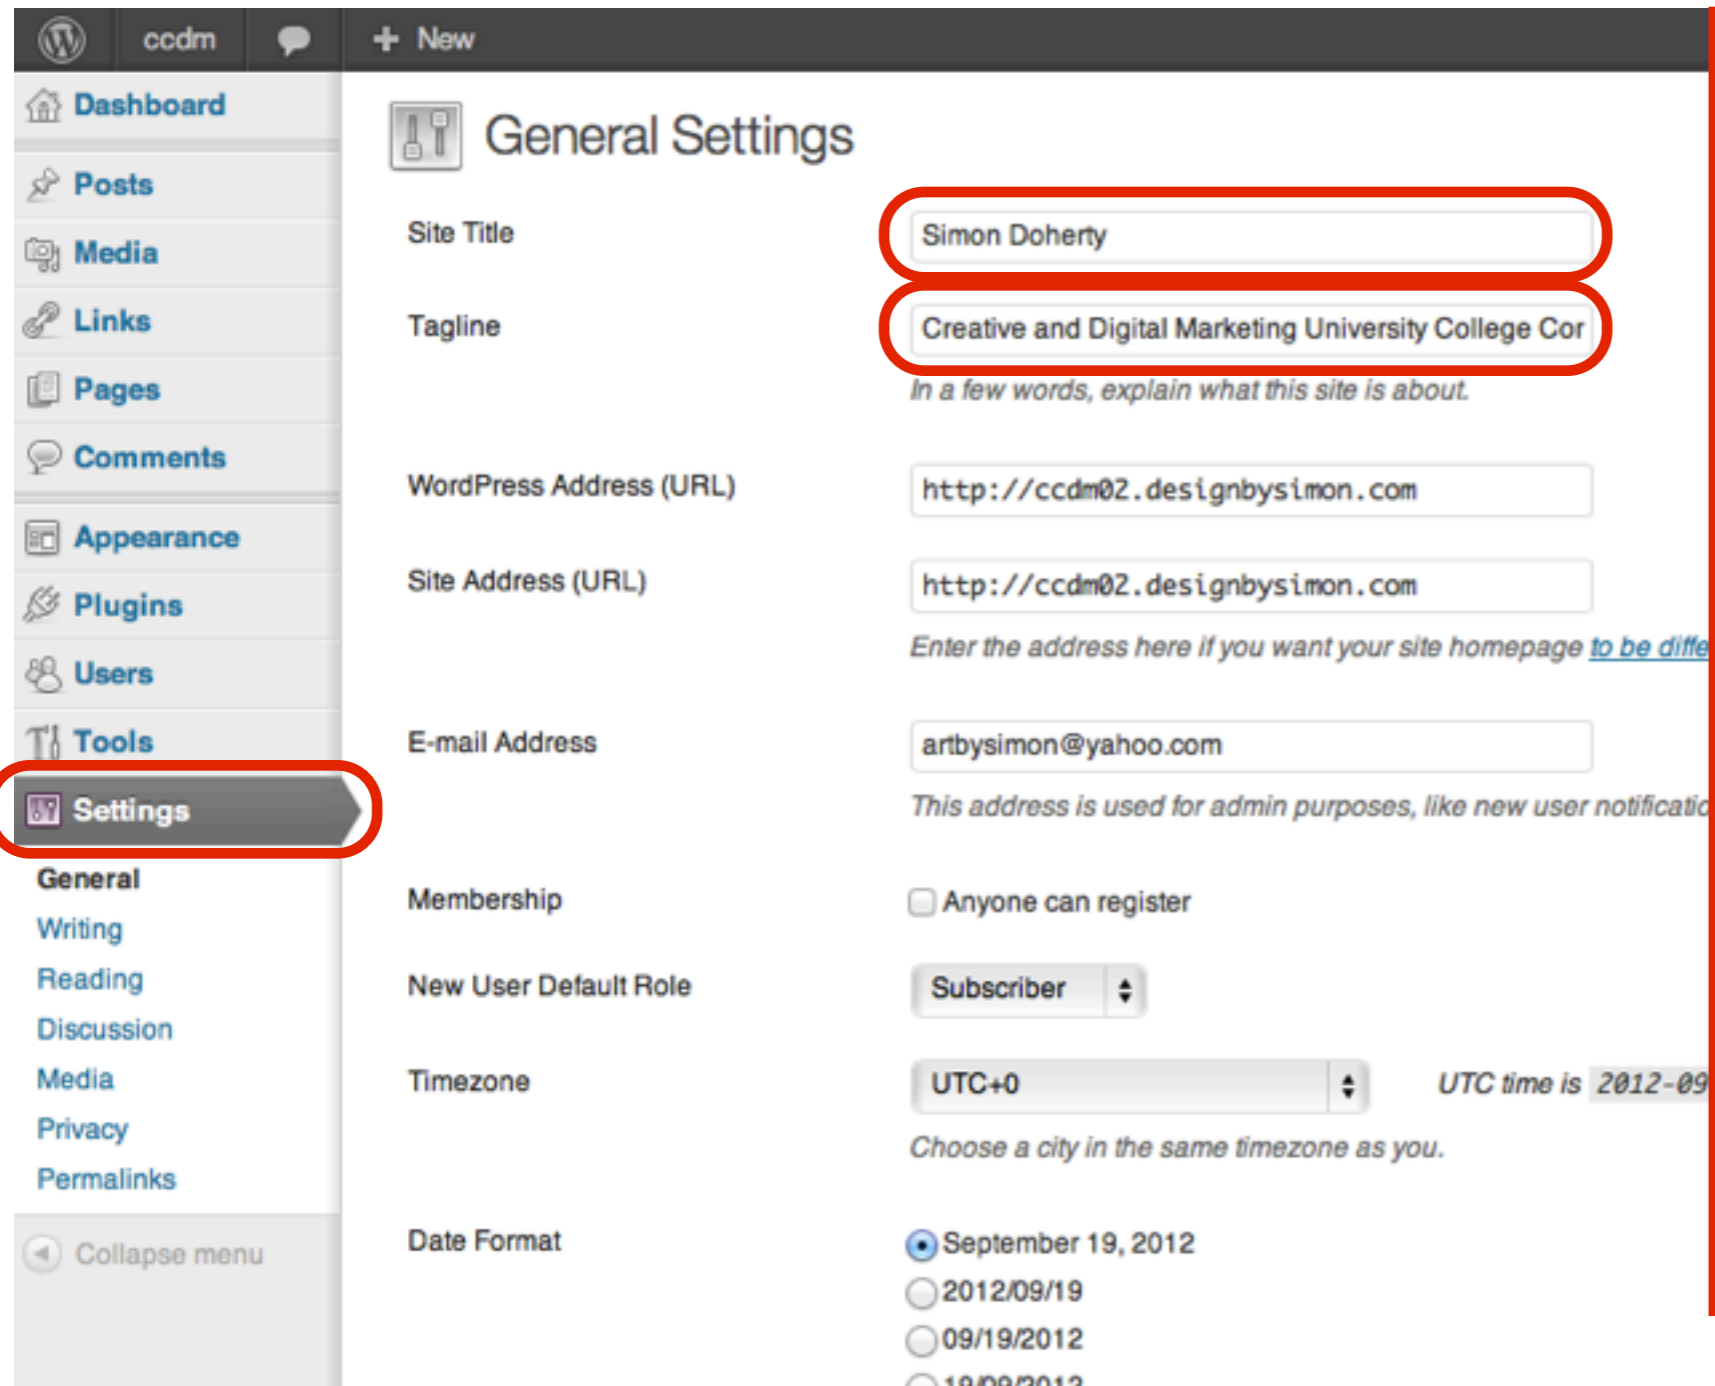

- You can change your password by entering a new password into the **New Password** text field.

- When you select **Update Profile**, your new password will be emailed to the email address in your **Profile - Contact Info** section

- Select **Update Profile**

Update Profile

Title and Tagline

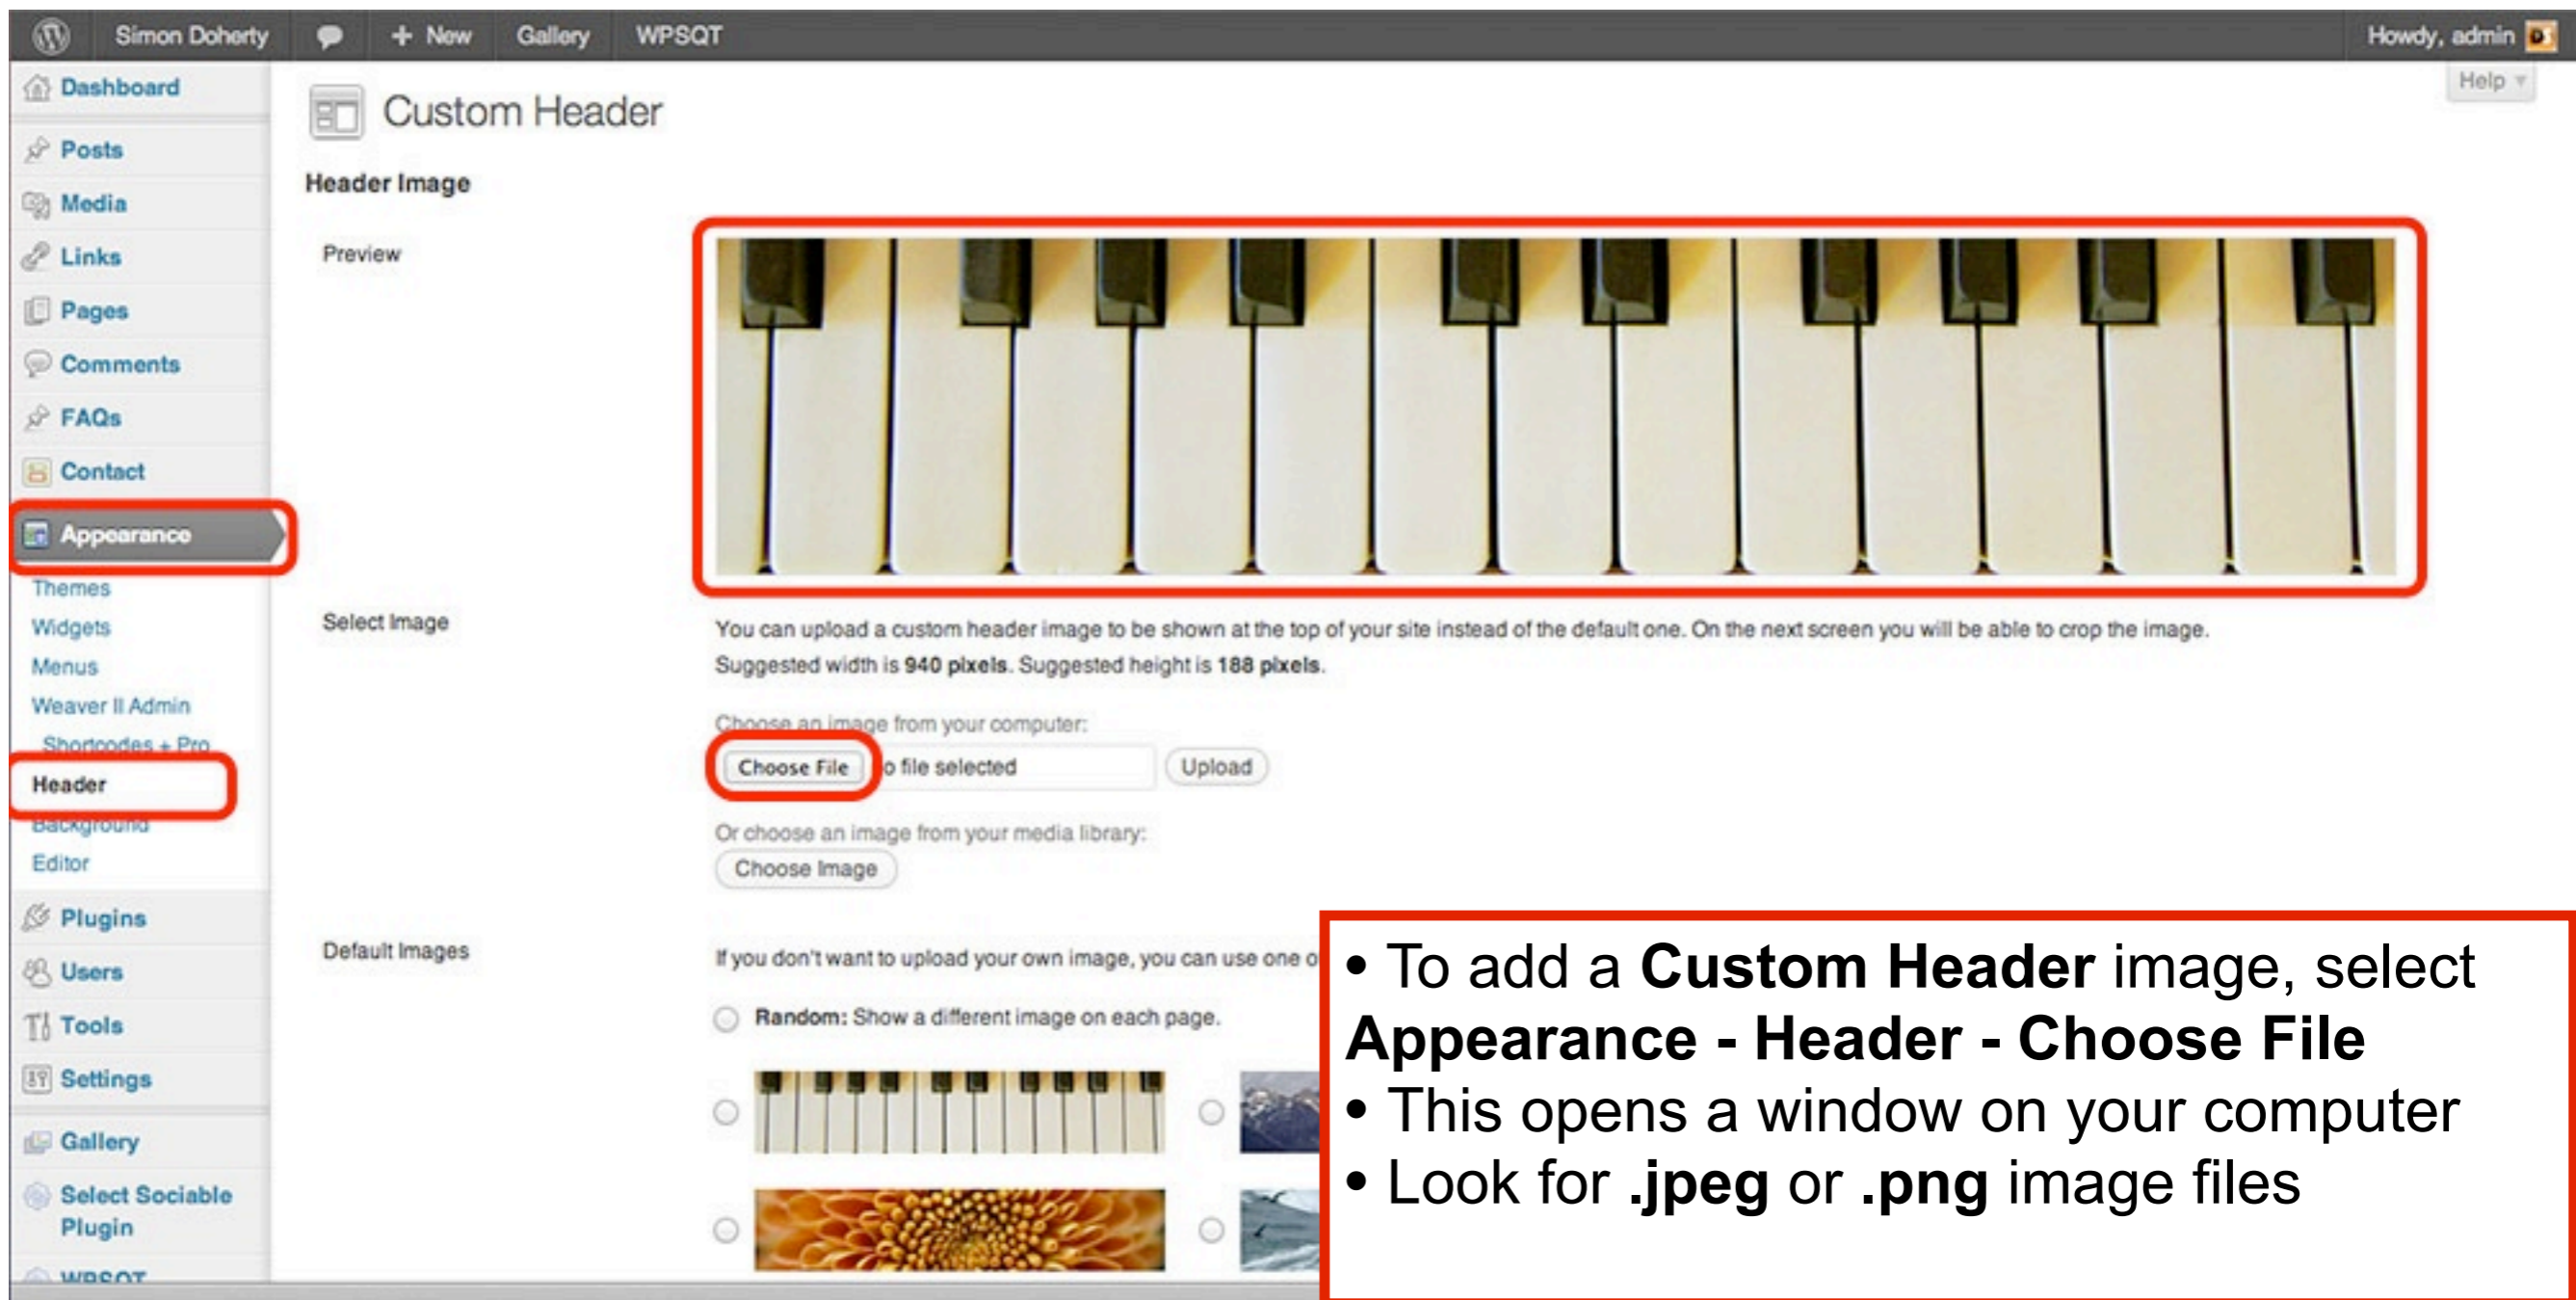

The screenshot shows the WordPress dashboard with the 'Settings' menu item highlighted in the left sidebar. The 'General Settings' page is open, showing the following fields:

- Site Title:** Simon Doherty
- Tagline:** Creative and Digital Marketing University College Cor
- WordPress Address (URL):** http://ccdm02.designbysimon.com
- Site Address (URL):** http://ccdm02.designbysimon.com
- E-mail Address:** artbysimon@yahoo.com
- Membership:** Anyone can register
- New User Default Role:** Subscriber
- Timezone:** UTC+0
- Date Format:** September 19, 2012

- To change your **Site Title**, select **Settings - General** to go to **General Settings**
- Enter a new title in the **Site Title** text field. This will be the main title displayed in your website header
- Enter a new tagline in the **Tagline** text field. This will be displayed below your main title in your website header
- Select **Save Changes** to save these changes

View your new Custom Background colour

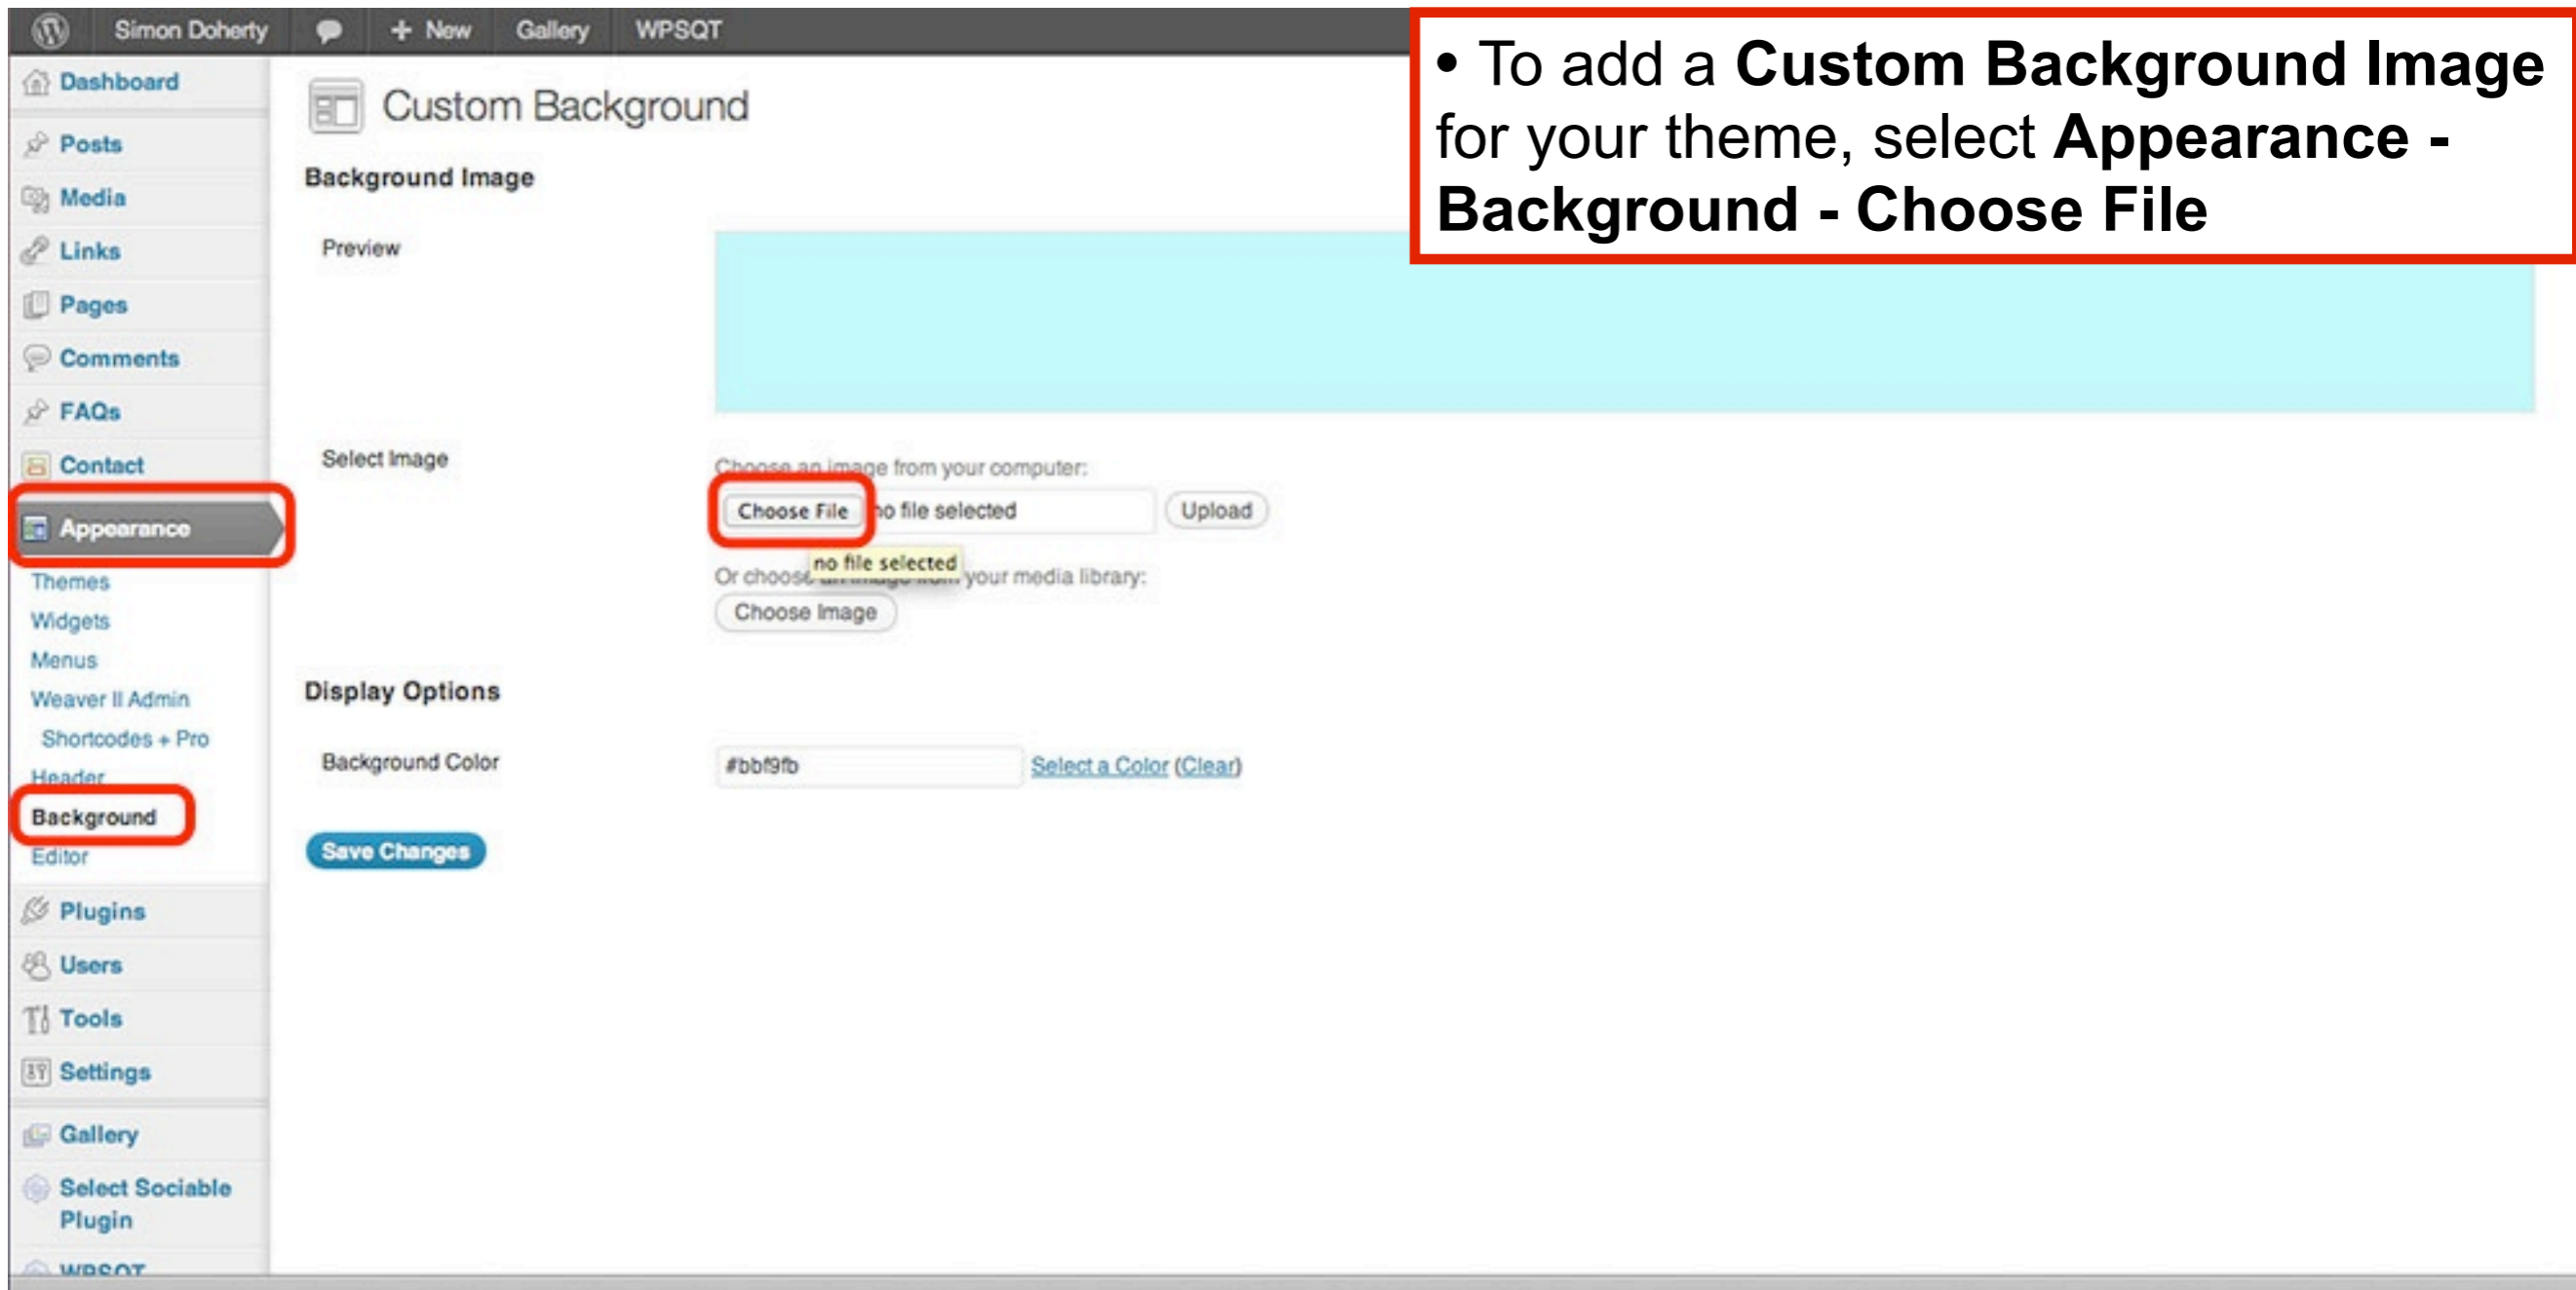

The screenshot displays a WordPress website with a custom light blue background. The top navigation bar includes the WordPress logo, the name "Simon Doherty", and links for "+ New", "Edit Page", and "WPSQT". On the right side of the top bar, it says "Howdy, admin" with a user profile icon and a search icon.

The main content area features a header with the name "Simon Doherty" in a large, bold, dark blue font, followed by the subtitle "Creative and Digital Marketing University College Cork" in a smaller, italicized font. Below the header is a large image of a purple thistle flower with a bee on it. Underneath the image is a navigation menu with links for "Home", "About Me", "Blog", "Contact Me", "Gallery", and "Sample Page".

The main content area is divided into two columns. The left column has a "Home" section with a "Page Content Area" below it, which contains a large, empty rectangular box. The right column contains a search bar labeled "Search Site" with a magnifying glass icon. Below the search bar are several widget sections: "Recent Posts" with a link to "Hello world!"; "Recent Comments" with a link to "Mr WordPress on Hello world!"; "Archives" with a link to "September 2012"; "Categories" with a link to "Uncategorized"; and "Meta" with links to "Site Admin" and "Log out".

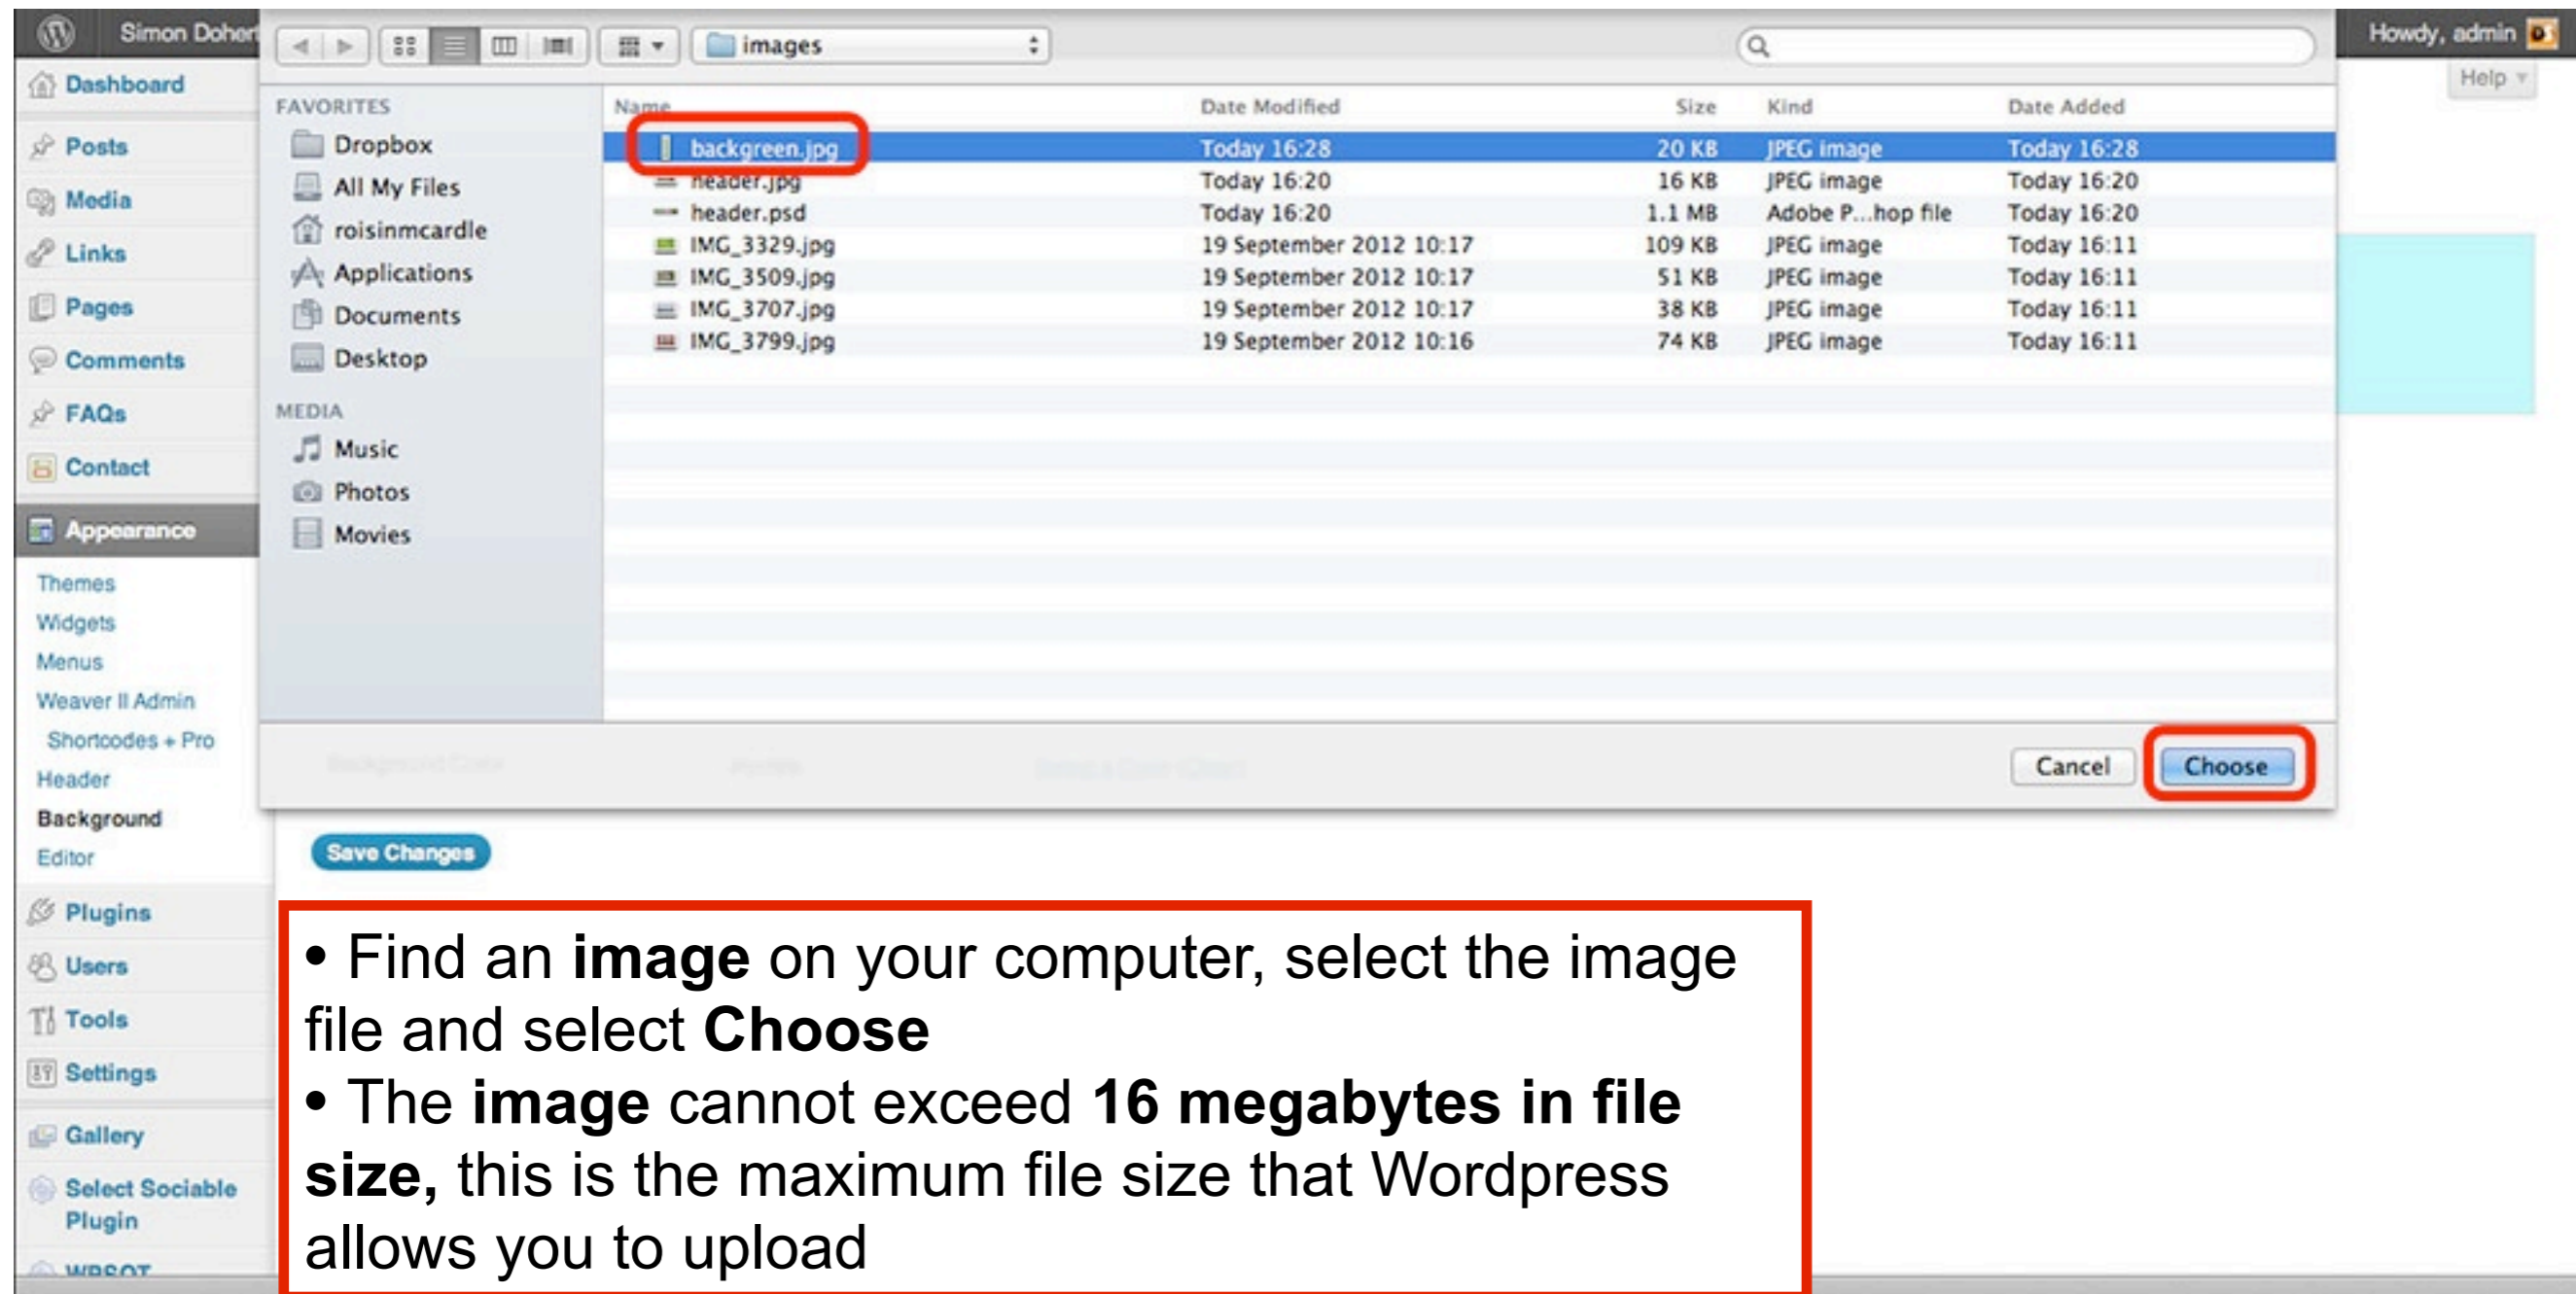

Add a Custom Background Image

- To add a **Custom Background Image** for your theme, select **Appearance - Background - Choose File**

The screenshot shows the WordPress Custom Background settings page. The left sidebar contains the following menu items: Dashboard, Posts, Media, Links, Pages, Comments, FAQs, Contact, **Appearance** (highlighted with a red box), Themes, Widgets, Menus, Weaver II Admin, Shortcodes + Pro, Header, **Background** (highlighted with a red box), Editor, Plugins, Users, Tools, Settings, Gallery, Select Sociable Plugin, and WPSQT. The main content area is titled "Custom Background" and includes a "Background Image" section with a "Preview" area showing a light blue background. Below the preview, there are two options for selecting an image: "Choose an image from your computer:" with a "Choose File" button (highlighted with a red box) and an "Upload" button; and "Or choose from your media library:" with a "Choose Image" button. The "Display Options" section includes a "Background Color" field with the value "#bb9fb" and a "Select a Color (Clear)" link. A "Save Changes" button is located at the bottom of the settings area.

Choose an image from your computer

The screenshot shows a WordPress media library interface. Themes

Choose a Theme

The screenshot shows the WordPress dashboard interface. On the left sidebar, the 'Appearance' menu is highlighted, and the 'Themes' sub-menu is selected. In the main content area, the 'Install Themes' tab is circled in red, and a red arrow points from it to the 'Appearance' menu. Below the 'Install Themes' tab, the 'Twenty Eleven' theme is displayed, including its preview image, name, version (1.4), and a description. At the bottom of the page, a red-bordered box contains the following instructions:

- Select **Appearance - Themes**
- Select the **Install Themes** tab

Search for Weaver II

The screenshot shows the WordPress dashboard with the 'Manage Themes' section active. The search bar contains the text 'Weaver 2' and the 'Search' button is highlighted. A red box highlights the search instructions.

• Enter **Weaver 2 in the “Search for themes by keyword” text field**

• Select **Search**

Install Weaver II

The screenshot shows the WordPress dashboard with the 'Manage Themes' tab selected. A search bar contains the text 'Weaver 2'. Below the search bar, two theme cards are visible. The first card, 'Weaver II Theme' by wpweaver, is highlighted with a red border. It features a preview image of a piano keyboard and text describing its features, such as 'Customize Your Site + Mobile Device Support' and 'The Easiest Way to Customize Your Site's Appearance'. Below the preview, there are buttons for 'Install Now', 'Preview', and 'Details'. The 'Install Now' button is circled in red. The second card, 'Weaver' by wpweaver, is also visible but not highlighted.

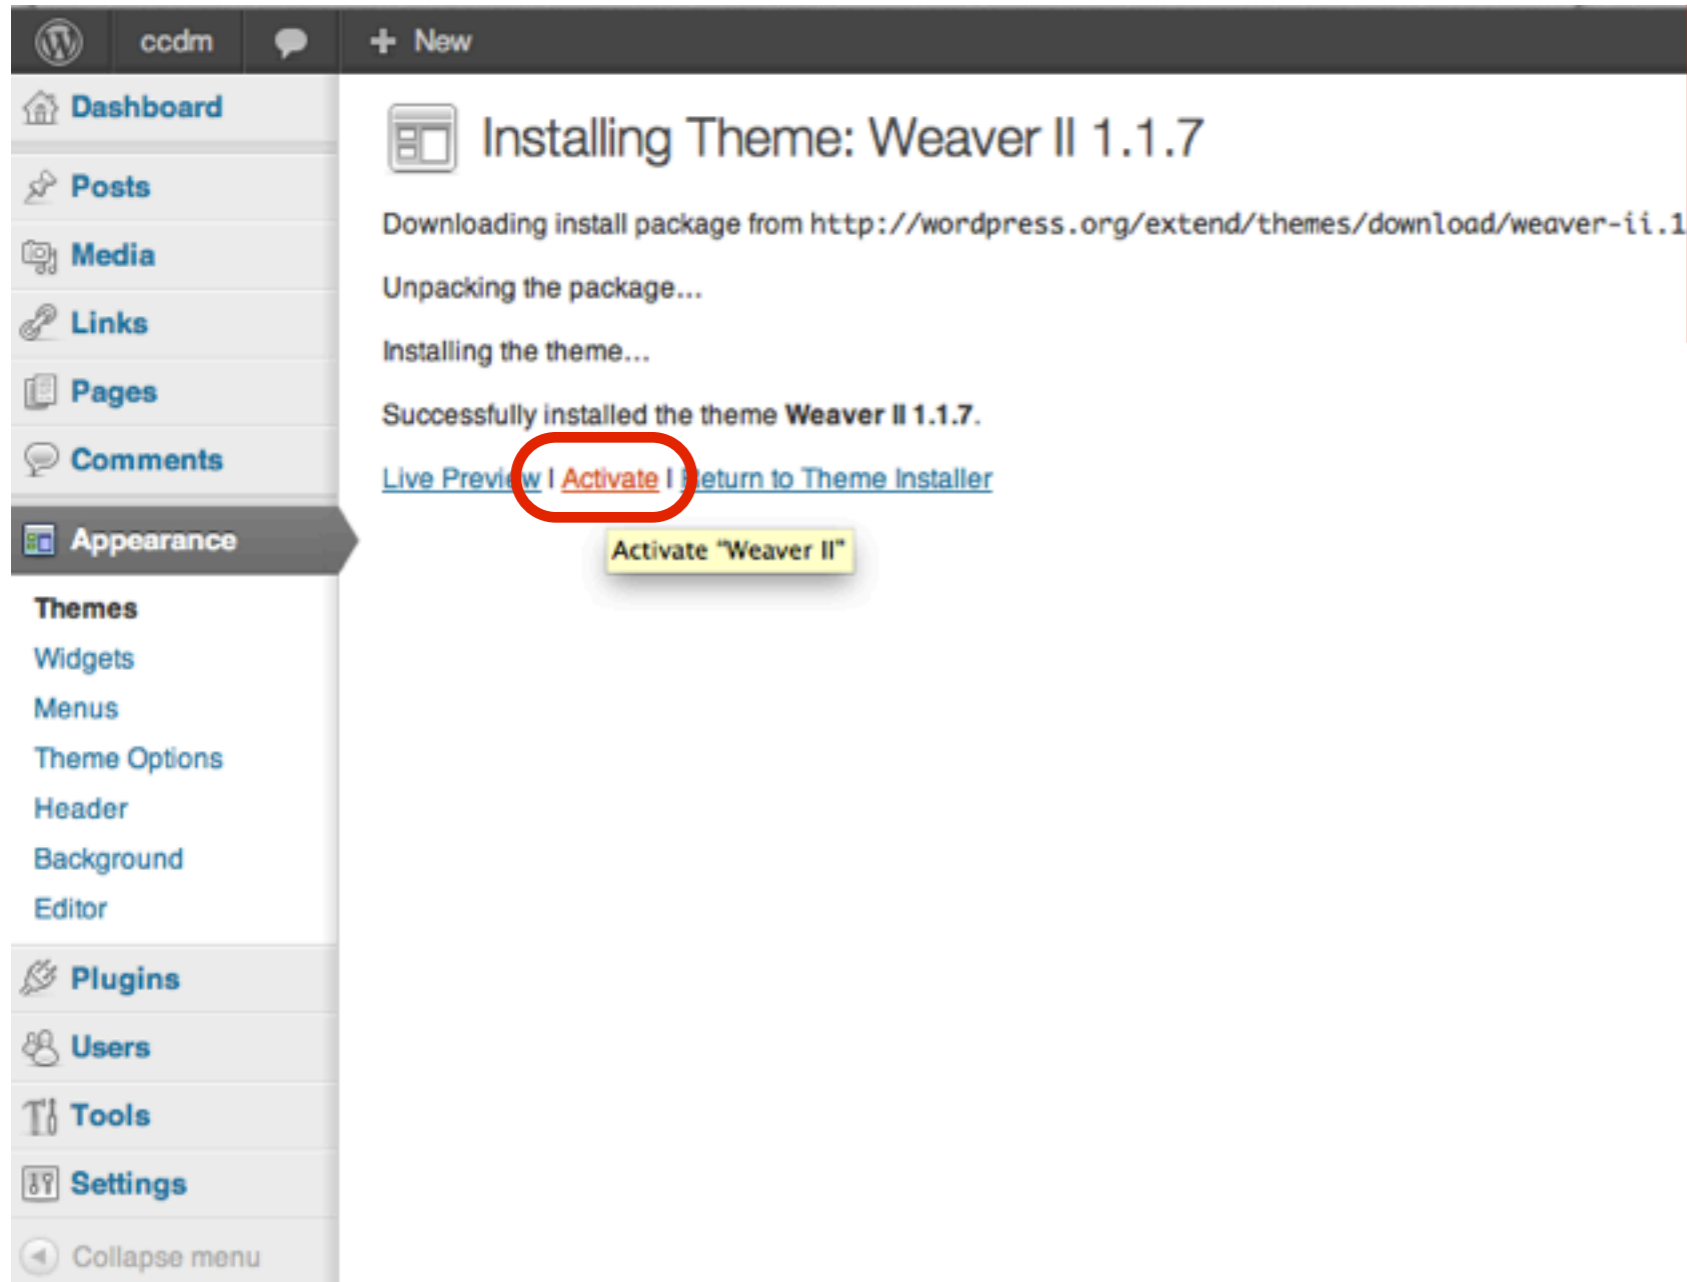

• Select **Install Now** below the **Weaver II Theme**

This screenshot shows the 'Weaver' theme page on the WordPress theme directory. It features a preview image of a website with a green and yellow background. The title is 'Weaver' by wpweaver. Below the preview, there is a description of the theme, including its features and a 'Download' button.

The screenshot shows a WordPress theme preview for 'Simon Doherty'. The top navigation bar includes the WordPress logo, the user name 'Simon Doherty', a '+ New' button, an 'Edit Page' button, and a user profile 'Howdy, admin' with a search icon. The main content area features a light blue header with the name 'Simon Doherty' and the subtitle 'Creative and Digital Marketing University College Cork'. Below this is a large image of piano keys. A secondary navigation bar contains 'Home', 'Blog', and 'Sample Page'. The main content area is titled 'Home' and contains a 'Page Content Area' with an 'Edit' button. Below the content area is a 'Leave a Reply' section with the text 'Logged in as admin. Log out?' and a 'Comment' input field. The right sidebar contains a 'Search Site' box, 'Recent Posts' (Hello world!), 'Recent Comments' (Mr WordPress on Hello world!), 'Archives' (September 2012), 'Categories' (Uncategorized), and 'Meta' (Site Admin, Log out).

Blog: Layout for main blog page. Includes "Page with Posts" Page templates.

Post Single Page: Layout for Posts displayed as a single page.

Archive: Pro Version Layout for archive pages on your site. Used for all archive-like pages unless otherwise specified. (Pro)

Category Archive: Pro Version Layout for category archive pages. (Pro)

Settings for site

- In the Layout settings, the width of the Theme is determined in the Theme Width setting. Default is 940px

The Theme Width default is 940 pixels wide

The image shows a screenshot of a WordPress theme preview. At the top, a dark grey navigation bar contains the text "on Doherty", a speech bubble icon, "+ New", "Edit Page", "WPSQT", and "Howdy, ad". Below this is a light green header area with the name "Simon Doherty" in a large, bold, dark blue font, and the subtitle "Creative and Digital Marketing University College Cork" in a smaller, italicized font. A large, vibrant image of a purple thistle with a bee on it serves as the main background. Below the image is a light blue navigation menu with links for "Home", "About Me", "Blog", "Contact Me", "Gallery", and "Sample Page". The main content area is white and features a "Home" link, a "Page Content Area" with a large grey placeholder box, and a right-hand sidebar. The sidebar contains a search box labeled "Search Site" with a magnifying glass icon, and several widget sections: "Recent Posts" with a link to "Hello world!", "Recent Comments" with a link to "Mr WordPress on Hello world!", "Archives" with a link to "September 2012", "Categories" with a link to "Uncategorized", and "Meta" with links for "Site Admin" and "Log out". A large red double-headed arrow spans the width of the main content area, with the number "940" in a large, bold, red font centered above it, indicating the theme's default width.

The Theme Width can be Flexible or Fixed

The Theme is flexible, so when the browser window is resized, the Theme automatically adjusts to fit the new window size

The option to change the Theme Width to Fixed is found in - Main Options - Layout

The screenshot shows the WordPress admin dashboard for a user named Simon Doherty. The main content area displays the 'Weaver II 1.1.7 Options' page. A yellow notification box at the top states 'Weaver II Settings Saved.' The navigation tabs include 'Weaver II Themes', 'Main Options', 'Advanced Options', 'Admin Options', 'Weaver II Pro', 'Shortcodes/Plugins', 'Save/Restore', and 'Help'. The 'Main Options' tab is selected, and its sub-tabs are 'General Appearance', 'Layout', 'Fonts', 'Widget Areas', 'Header', 'Menus', 'Links', 'Content Areas', 'Post Specifics', and 'Footer'. The 'Layout' sub-tab is active. The 'Main Options' section includes a 'Save Settings' button and a description: 'Settings affecting overall Site Layout. This includes Widths, Margins, Sidebar Layout, and Background colors of major layout regions.' The 'Layout' section contains several settings: 'Theme Width' (1000 px), 'Theme Width Fixed' (checkbox, highlighted with a red box), 'Theme Margins: Top/Bottom' (T: [] px B: [] px), 'Theme Margins: Left/Right' (L: [] px R: [] px), and 'Wrapper Padding' ([] px). The 'Sidebar Layout' section includes dropdown menus for 'Blog, Post, Page Default' (Single column sidebar on Right), 'Archive-like Default' (No sidebars, one column content), 'Page' (Use Default), 'Blog' (Use Default), and 'Post Single Page' (Use Default). The right side of the page provides detailed descriptions for each setting.

Thank you for creating with WordPress.

Version 3.4.2

Open "http://ccdm02.designbysimon.com/wp-admin/post.php?post=5&action=edit" in a new tab

- In the **Wordpress Dashboard** select **Pages - All Pages**
- Select a **Page to Edit**

In the Edit Page section, scroll down

The image shows a screenshot of the WordPress 'Edit Page' interface. At the top, the user 'Simon Doherty' is logged in, and the page title is 'Home'. The main content area is currently empty, showing a large red arrow pointing downwards and the text 'Scroll Down' overlaid on the page. The interface includes a left sidebar with navigation options like 'Dashboard', 'Posts', 'Media', 'Links', 'Pages', 'Comments', 'FAQs', 'Contact', 'Appearance', 'Plugins', 'Users', 'Tools', 'Settings', 'Gallery', 'Select Sociable Plugin', and 'WPSQT'. The right sidebar contains 'Publish' options (Status: Published, Visibility: Public, Published on: Sep 19, 2012 @ 8:44), 'Page Attributes' (Parent: (no parent), Template: Default Template, Order: 0), and 'Disable sociable' options. The bottom of the page shows 'Weaver II Options For This Page' and 'Page Templates' information.

In Weaver 2 Options For This Page section, select a Sidebar Layout from the drop down menu

The screenshot shows the 'Weaver II Options For This Page' settings page. The page title is 'Weaver II Options For This Page' and it includes '(This Page's ID: 5)'. The settings are organized into several sections:

- Page Templates** (with a help icon): Includes a note to click the (?) for more information about all the Weaver II Page Templates.
- Per Page Options** (with a help icon): These settings let you hide various elements on a per page basis. It includes checkboxes for: Hide Page Title, Hide Site Title/Description, Hide Menus, Hide Standard Header Image, Hide Entire Header, Hide Info Bar on this page, Hide Entire Footer, Hide Page on the default Primary Menu, Hide Page on mobile devices (default menu only), Hide Page on the default Primary Menu if logged in, Hide Page on the default Primary Menu if NOT logged in, Menu "Placeholder" page. Useful for top-level menu item - don't go anywhere when menu item is clicked., Disable Visual Editor for this page. Useful if you enter simple HTML or other code., and a red box highlights a dropdown menu labeled 'Select Sidebar Layout for this page - overrides default Page layout.'
- Selective Display of Widget Areas**: These settings let you hide display of widget areas that would normally be displayed for a given page template. (Note that different page templates don't necessarily display the same widget areas.) It includes checkboxes for: Hide Header Horizontal Area, Hide Primary (top) Area, Hide Upper/Right Area, Hide Lower/Left Area, Hide Top Area, Hide Bottom Area, Hide Sitewide Top Area, and Hide Sitewide Bottom Area. Below these are four text input fields for: Additional Top Widget Area, Primary (top) Replacement, Upper/Right Replacement, and Lower/Left Replacement.
- Settings for "Page with Posts" Template** (with a help icon): A note states: 'After you choose the "Page with Posts" template from the Template option in the Page Attributes box, and Publish or Save Draft, settings for "Page with Posts" will be displayed here. (Current page template: default)'
- Per Page Code Insertion** (with a help icon): Weaver supports code and HTML insertion for the following areas. To add code, manually define the specified Custom Field Name and Value): Define page-head-code, and the value contents will be added to the <HEAD> section. Include <style>...</style> if adding CSS.

On the right side of the page, there are two additional settings boxes: 'Disable sociable' with a checkbox and a note 'Check This To Disable Sociable 2 On This Post Only.', and 'Featured Image' with a link 'Set featured image' and a note 'Featured Images at least as wide as default header image will be used as a replacement for default image for this page or post. Smaller images used as "thumbnail" at beginning of Page/Post.'

Choose a Sidebar Layout from the drop down menu and scroll up

Note: the following hide "Page on Primary Menu" options work with the default menu - not custom menus.

- Hide Page on the default Primary Menu
- Hide Page on mobile devices (default menu only)
- Hide Page on the default Primary Menu if logged in
- Hide Page on the default Primary Menu if NOT logged in
- Menu "Placeholder" page. Useful for top-level menu item - don't go anywhere when menu item is clicked.
- Disable Visual Editor for this page. Useful if you enter simple HTML or other code.

Split - sidebars on Right and Left Select *Sidebar Layout* for this page - overrides default Page layout.

Selective Display of Widget Areas

These settings let you hide display of widget areas that would normally be displayed for a given page template. (Note that different page templates don't necessarily display the same widget areas.)

- Hide Header Horizontal Area
- Hide Primary (top) Area
- Hide Upper/Right Area
- Hide Lower/Left Area
- Hide Top Area
- Hide Bottom Area
- Hide Sitewide Top Area
- Hide Sitewide Bottom Area

Use Weaver II *Main Options* → *Widget Areas* → *Define Per Page Widget Areas* (near bottom) tab to define widget areas to use here. ?

Additional Top Widget Area - Enter name of a Per Page Widget Top Area to display.

Primary (top) Replacement - Enter name of a Per Page Widget Area to replace the standard Primary (top) area.

Upper/Right Replacement - Enter name of a Per Page Widget Area to replace the standard Upper/Right area.

Lower/Left Replacement - Enter name of a Per Page Widget Area to replace the standard Lower/Left area.

Settings for "Page with Posts" Template ?

Note: After you choose the "Page with Posts" template from the *Template* option in the *Page Attributes* box, and *Publish* or *Save Draft*, settings for "Page with Posts" will be displayed here. (Current page template: default)

Per Page Code Insertion ? Weaver supports code and HTML insertion for the following areas. To add code, manually define the specified *Custom Field Name* and *Value*: Define *page-head-code*, and the value contents will be added to the <HEAD> section. Include <style>...</style> if adding CSS.

Disable sociable

Check This To Disable Sociable 2 On This Post Only.

Select Update to save the Sidebar Layout settings

The screenshot displays the WordPress 'Edit Page' interface. The top navigation bar includes the user name 'Simon Doherty', a '+ New' button, and links for 'View Page', 'Gallery', and 'WPSQT'. The user is logged in as 'Howdy, admin'. The left sidebar contains a menu with options like 'Dashboard', 'Posts', 'Media', 'Links', 'Pages', 'Comments', 'FAQs', 'Contact', 'Appearance', 'Plugins', 'Users', 'Tools', 'Settings', 'Gallery', 'Select Sociable Plugin', and 'WPSQT'. The main content area is titled 'Edit Page' and shows the page title 'Home' with a 'View Page' button. Below the title is a rich text editor with a toolbar and a 'Page Content Area' containing a placeholder image. The right sidebar contains several panels: 'Publish' with a 'Preview Changes' button and 'Update' button (highlighted in red), 'Page Attributes' with dropdowns for 'Parent' and 'Template', and 'Disable sociable' with a checkbox. The bottom of the page shows 'Weaver II Options For This Page' and 'Page Templates' information.

The Sidebar Layout settings have been changed

The screenshot shows a WordPress website with a sidebar layout. The main content area is titled "Sample Page" and contains a paragraph of text and a quote. The sidebar is located on the left and right sides of the main content area. The left sidebar contains "Categories" and "Archives" sections. The right sidebar contains a "Search Site" box, "Recent Posts", "Recent Comments", and "Meta" sections. The top navigation bar includes "Home", "About Me", "Blog", "Contact Me", "Gallery", and "Sample Page".

The contents of the Widgets in the Sidebar can be changed in Appearance - Widgets

The screenshot displays the WordPress Admin Dashboard. The top navigation bar includes the user name 'Simon Doherty', a '+ New' button, and site information 'Gallery WPSQT'. The user profile 'Howdy, admin' is visible in the top right corner. The left sidebar menu is visible, with 'Appearance' and 'Widgets' highlighted in red. The main content area is titled 'Widgets' and contains a grid of available widgets. The right sidebar configuration panel is also highlighted in red, showing the 'Primary (top) Sidebar' area with a list of widgets: Search, Recent Posts, Recent Comments, Archives, Categories, and Meta. Below this, other sidebar areas are listed: Upper/Right Sidebar, Lower/Left Sidebar, Mobile Device Widget Area, and Header Horizontal Widget Area.

Available Widgets

Drag widgets from here to a sidebar on the right to activate them. Drag widgets back here to deactivate them and delete their settings.

Archives A monthly archive of your site's posts	Calendar A calendar of your site's posts	Categories A list or dropdown of categories
Custom Menu Use this widget to add one of your custom menus as a widget.	Links Your blogroll	Meta Log in/out, admin, feed and WordPress links
NextGEN Media RSS Widget that displays Media RSS links for NextGEN Gallery.	NextGEN Slideshow Show a NextGEN Gallery Slideshow	NextGEN Widget Add recent or random images from the galleries
Pages Your site's WordPress Pages	Recent Comments The most recent comments	Recent Posts The most recent posts on your site
RSS Entries from any RSS or Atom feed	Search A search form for your site	Simple QR Code Simple QR Code
Tag Cloud Your most used tags in cloud format	Text Arbitrary text or HTML	Top Scores Top Scores
Weaver II Login Log in/out, admin	Weaver II Text 2 Text Widget with Two Columns - with HTML and shortcode support. Also adds shortcodes to standard Text widget.	WP UI Posts Implement your posts automatically as tabs, sliders, accordions or spoilers.
	WP UI Widget

The contents of the Widgets in the Sidebar can be changed in Appearance - Widgets

The screenshot shows the WordPress 'Appearance - Widgets' interface. On the left is a sidebar menu with categories like 'Appearance', 'Plugins', 'Users', 'Tools', 'Settings', 'Gallery', and 'WPSQT'. The main area displays a grid of widget options such as 'NextGEN Media RSS', 'Recent Comments', 'Recent Posts', 'Tag Cloud', 'Search', and 'WP UI Posts'. On the right, there are several widget area boxes, including 'Lower/Left Sidebar', 'Mobile Device Widget Area', and 'Pages Top Widget Area'. Red annotations highlight the 'Recent Comments' and 'Tag Cloud' widgets, and a red box around the 'Lower/Left Sidebar' widget area with a downward arrow pointing to its dropdown arrow. A large red text overlay at the bottom reads 'Drag and Drop widgets into Widget Area boxes'.

Click the Arrow to open the Widget Area box

Drag and Drop widgets into Widget Area boxes

The Sidebars Width can be changed in Appearance - Weaver 2 Admin - Main Options - Layout

The screenshot displays the WordPress admin dashboard for a user named Simon Doherty. The top navigation bar includes links for 'New', 'Edit Page', and 'WPSQT'. The user's name 'Simon Doherty' and a 'Howdy, admin' greeting are visible in the top right. The main content area shows the 'Appearance' settings for the 'Weaver 2' theme, specifically the 'Main Options - Layout' section. The sidebar width is set to 'Medium'. The preview area shows a blog post titled 'Home' with a 'Page Content Area' below it. The right sidebar contains a search box and several widget categories: 'Recent Posts' (with 'Hello world!'), 'Recent Comments' (with 'Mr WordPress on Hello world!'), 'Archives' (with 'September 2012'), 'Categories' (with 'Uncategorized'), and 'Meta' (with 'Site Admin').

Select Main Options - Layout and scroll down

The screenshot displays the WordPress admin dashboard for a user named Simon Doherty. The main content area is titled "Weaver II 1.1.7 Options". A navigation bar at the top includes tabs for "Weaver II Themes", "Main Options", "Advanced Options", "Admin Options", "Weaver II Pro", "Shortcodes/Plugins", "Save/Restore", and "Help". Below this, a secondary navigation bar highlights "General Appearance" and "Layout".

The "Main Options" section is active, with a "Save Settings" button. The "Layout" sub-section is also active. The "Layout" section includes the following settings:

- Theme Width:** 1000 px
- Theme Width Fixed:**
- Theme Margins: Top/Bottom:** T: px B: px
- Theme Margins: Left/Right:** L: px R: px
- Wrapper Padding:** px

The "Sidebar Layout" section includes the following settings:

- Blog, Post, Page Default:** Split - sidebars on Right and Left
- Archive-like Default:** No sidebars, one column content
- Page:** Single column sidebar on Right
- Blog:** Split - sidebars on Right and Left
- Post Single Page:** Single column sidebar on Left
- Archive:** Pro Version
- Category Archive:** Pro Version
- Tags Archive:** Pro Version
- Author Archive:** Pro Version

On the right side of the page, the text "Scroll Down" is written in large red font, with a large red arrow pointing downwards from it.

Enter a number in the Sidebar Wrappers Properties section for the Default Width

Note: Width of container automatically calculated based on sidebar widths. CAUTION: Using CSS+ to add borders or other width changes to the container or sidebar wrappers can break sidebar layout.

Widths, Background, and Column Color Flow of Sidebars

If specified, will override all default sidebar widths specified below. This is mostly used for compatibility with the previous version of Weaver.

Wrapper area for Single column sidebar on Right (Top+Upper+Lower Widget Areas)
Width of sidebar (Default: 25%) (Pro)
Background color of sidebar wrapper (Pro)

Wrapper area for Single column sidebar on Left (Top+Upper+Lower Widget Areas)
Width of sidebar (Default: 25%) (Pro)
Background color of sidebar wrapper (Pro)

Wrapper area for Double column sidebar on Right (Top above Left+Right Widget Areas)
Width of sidebar (Primary/Top Widget Area is this width) (Default: 33%) (Pro)
Background color of sidebar wrapper (Pro)

Wrapper area for Double column sidebar on Left (Top above Left+Right Widget Areas)
Width of sidebar (Primary/Top Widget Area is this width) (Default: 33%) (Pro)
Background color of sidebar wrapper (Pro)

The Left and Right sidebars under the Primary (top) area in Double column sidebars.
Left Width as % of double sidebar area width (Right set automatically) (Default: 55%) (Pro)

Wrapper area for Split sidebars - Left side and Right side (Top above Right)
Width of Left Side sidebar (Default: 17%) (Pro)
Width of Right Side sidebar (Default: 17%) (Pro)
Background color of left split sidebar wrapper (Pro)
Background color of right split sidebar wrapper (Pro)

Settings for site layout: theme width and margins, sidebar layout, bg color flow

Change Theme Width. Standard size is 940px. Header image width is automatically changed, too. Does not include wrapper padding. (Uses CSS "max-width" to set width, which gives "flexible width" shrinking for displays smaller than the width specified.)

Force the theme width to be fixed (use CSS "width" instead of "max-width"). Using this option is not recommended. This setting will also "break" the Mobile View, so you should disable Mobile Support as well.

Top and bottom margins around whole site. (Default: 20px)

Left and right margins around whole site. (Default: 20px)

Wrapper Padding - space between wrapper edges and header, content, sidebars, footer. (Default: 10px)

Sidebar Layout for each type of page

Select the default theme layout for blog, single post, and pages.

Select the default theme layout for all other pages - archives, search, etc.

Layout for normal Pages on your site.

Layout for main blog page. Includes "Page with Posts" Page templates.

Layout for Posts displayed as a single page.

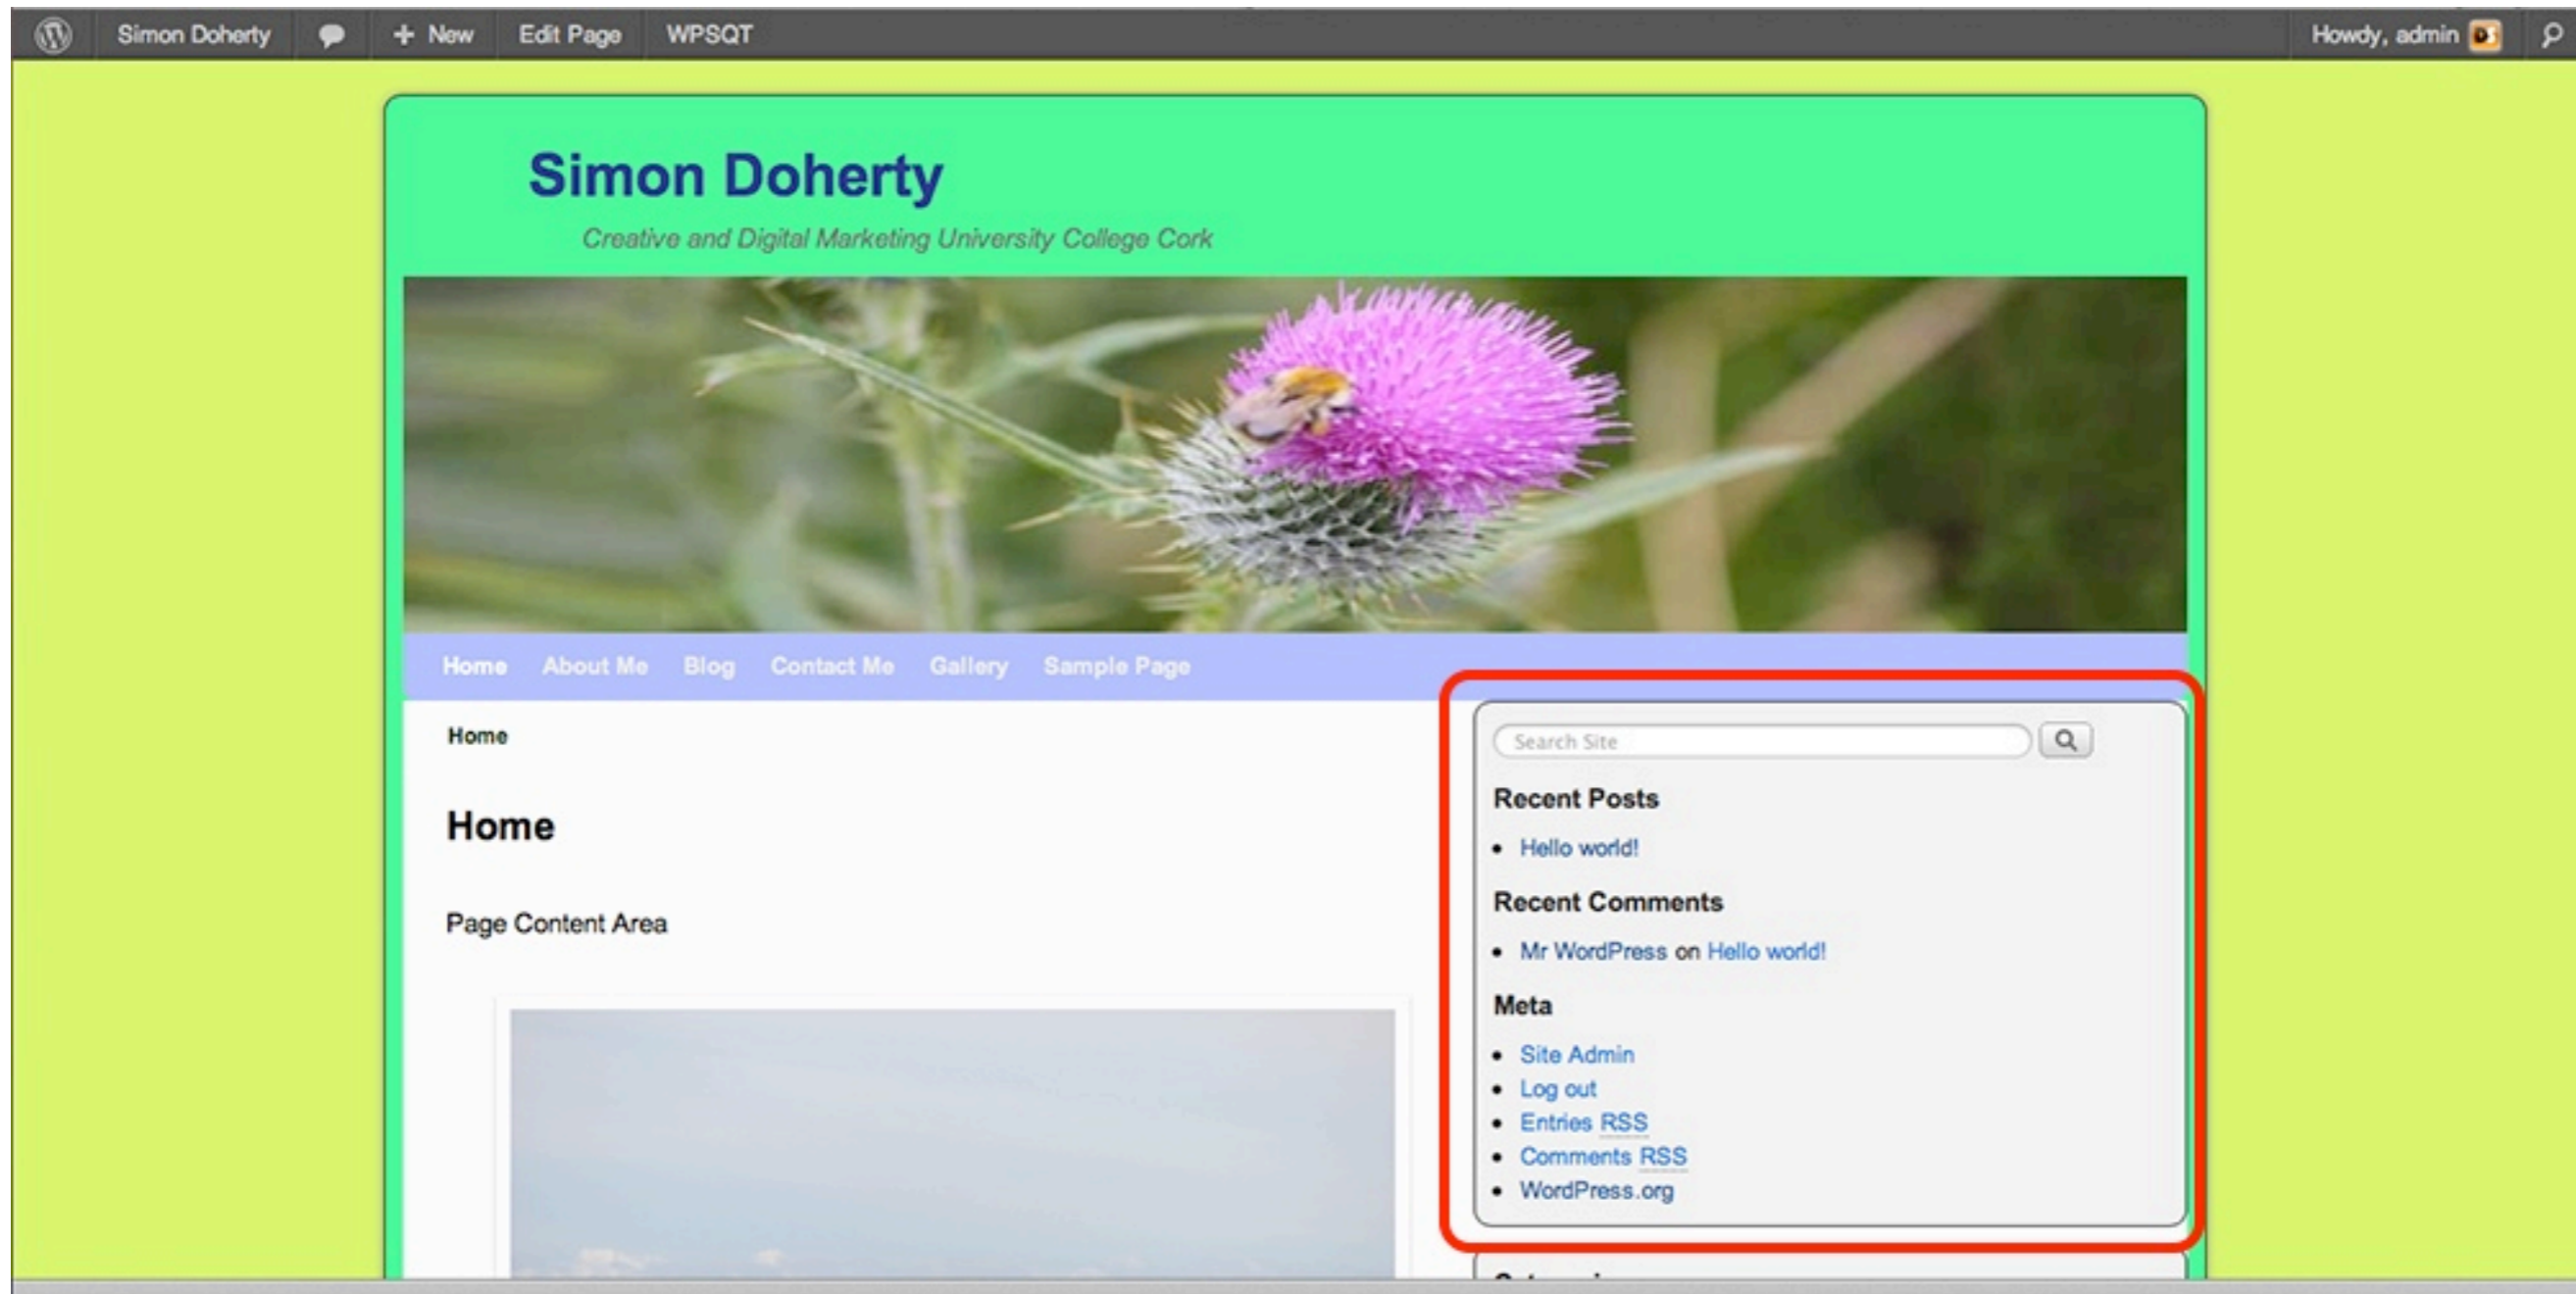

Layout for archive pages on your site. Used for all archive-like pages unless otherwise specified. (Pro)

Layout for category archive pages. (Pro)

Layout for tag archive pages. (Pro)

Layout for author archive pages. (Pro)

The Sidebar Width is changed

The image shows a screenshot of a WordPress website. The top navigation bar includes the WordPress logo, the name "Simon Doherty", a comment icon, a "+ New" button, "Edit Page", "WPSQT", and a user profile "Howdy, admin". The main content area has a green header with "Simon Doherty" and "Creative and Digital Marketing University College Cork". Below this is a large image of a purple thistle with a bee. A light blue navigation menu contains "Home", "About Me", "Blog", "Contact Me", "Gallery", and "Sample Page". The main content area is titled "Home" and contains a "Page Content Area" with a placeholder image. On the right, a sidebar is highlighted with a red border, containing a "Search Site" input, "Recent Posts" (with "Hello world!"), "Recent Comments" (with "Mr WordPress on Hello world!"), and "Meta" links: "Site Admin", "Log out", "Entries RSS", "Comments RSS", and "WordPress.org".
